
Semi-Automatic Candy De-Molder

The DPS Semi-Automatic Candy De-Molder (SACD) is used to remove candies, gummies and chocolates from their silicone molds. Food grade construction and our EZ clean design make this the tool of choice. Constructed of stainless steel and designed for repetitive use in an industrial/commercial environment, the SACD is pneumatically operated to reduce operator strain and improve productivity. Two hand operation ensures operator safety. The de-molder layout is customizable to suit your needs.

Model		**SACD-12.5-16-316L**
Maximum Mold Size (W)		12.5”
Maximum Mold Size (L)		16”
Construction	**Product Contact**	316L Stainless, FDA UHMW
	Fasteners	18-8 Stainless
	Bushings	FDA UHMW
	Cylinders	300 Series Stainless
Pneumatic		100 PSI (6.9kpa)
Dimensions	**Height**	12.75” (324mm)
	Width	23” (584mm)
	Length	47.5” (1206.5mm)
	Weight	92 Lbs (41.8KG)
Safety		-Two hand operation -Machine Covers
