

Title: Leadership

Overview

According to the idea of transformational leadership, an effective leader is a person who does the following: Creates an inspiring vision of the future. Motivates and inspires people to engage with that vision.

Essential Saying: Levels of leadership

Just because you have a position doesn't make you a leader.

People give you permission to lead them when you develop relationships with them. "People don't care how much you know until they know how much you care.

The third level is production. When you become productive, people respect you and follow you. Good leaders are good models

The fourth level is people development. This is where a leader produces other leaders. John Maxwell

Creating ongoing opportunities for discussion of problems of practice at every level in the organization. It is only through such discussion that we can collaboratively create new knowledge about how to continuously improve learning, teaching, and leadership.... Tony Wagner
