

## World Inclusion ParaDarts sight loss/blindness Proficiency Assessment.

To be completed by a person authorised by World Inclusion ParaDarts.

**\*Note\*** This is not a medical assessment, it is a practical safety assessment of a player's ability to play darts in a safe manner.

Name of player (please print), .....

Membership number, ..... Country, .....

A player's abilities should be graded using a score of 1 to 5 (1 being poor/unsafe, 5 being excellent/safe).

All scores should then be added up giving an overall ability score, 0-12 should be considered unsafe to play, 13-18 help will be required, 19-25 safe to play alone.

**1) Player can communicate with match officials and fully understand any instruction given, (communication devices are acceptable only if used in day-to-day activities)**

1 2 3 4 5 score.....

**2) Player can safely stay at the oche on their own should a match have to be paused at any point (for a minimum of 1 minute to a maximum of 5 minutes)**

1 2 3 4 5 score.....

**3) Player can aim at the dart board without assistance whilst game is in play,**

1 2 3 4 5 score.....

**4) Player can successfully hit a darts board, (8 out of 9 darts).**

1 2 3 4 5 score.....

**5) player can remain stood behind a throwing player waiting on their turn (minimum of 1 minute maximum of 5 minutes)**

1 2 3 4 5 score.....

**Total, ..... out of 25**

I ..... have assessed the above-named player, i have found the player to be:

1. Safe/unsafe to play darts with or without assistance
2. Assistance required Yes/NO

Signature .....

## Important Notes

A player may use assistance for the following reasons only, A player must declare the use of assistance at the point of registration of the event,

- a) To aid a player to retrieve darts once thrown and/or to assist the player to and from the oche,
- b) Aid/guide a player to ensure the lead leg or throwing shoulder is centrally aligned on the oche but must not influence a throwing stance.
- c) Aid/guide IS NOT allowed to interfere with game play at any time if the aid/guide has any concerns they must approach the match official or event referee
- d) The aid/guide should not communicate with a player in anyway whilst at the oche unless it is a safety issue and others are at risk
- e) Aid/guide is to confirm caller is stood in a safe position before the player can throw

World Inclusio ParaDarts reserve the right to ask a player at any time to retake a safety proficiency test anytime deemed necessary,

Date certificate issued, .....

Certificate renewal date, .....

Assessed by, ..... Confirmed by, .....
