

SeatTec

SEATS
THAT KEEP
YOU SAFE

SeatTec

SEATEC IS
A PROFESSIONAL
AND INNOVATIVE
COMPANY WHICH
MADE A GOOD NAME
FOR ITSELF
**IN THE RANGE
OF SEATS.**

With years of experience, the SeatTec team integrates the full process from design to manufacturing : development, prototype, construction, validation, homologation and serial delivery

with the highest requirements.
All safety metal parts are mainly produced by ourselves : forming, welding, milling and assembling.

OUR VISION

As a manufacturer of seat systems for special vehicles, we would like to position ourselves in this niche market as a leading and significant partner for personal safety.

OUR MISSION

To offer the vehicle occupant best possible protection through innovative solutions and help him to accomplish his mission.

INNOVATION

Development of new products for personal protection based on the criteria of stability, weight, blasting safety, ergonomics and comfort.
