

Certificate of Reach conformity

02.09.2025

REACH Conformity / SVHC Compliance of our Products

Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) is a European Union regulation dating from December 18, 2006. REACH addresses the production and use of chemical substances and their potential impacts on both human health and the environment.

With this REACH Certificate of Compliance document we confirm that all our products are compliant with the EU REACH regulation (EC) No 1907/2006 referring to the last update in ECHA website:

<https://echa.europa.eu/de/candidate-list-table>

The European Chemical Agency (ECHA) has current and future substances identified as Substances of Very High Concern (SVHC).

Once a substance is added to the SVHC Candidate List, the EU REACH

Regulation imposes immediate obligations on manufacturers and importers to declare the substances if present.

A substance of very high concern (SVHC) is a chemical substance (or part of a group of chemical substances) for which it has been proposed that the use within the European Union be subject to authorisation under the REACH Regulation.

We herewith confirm that the products sold and distributed by us apply to be compliant with the REACH conformity and SVHC regulation.
