A collection of surgical instruments, including forceps, a scalpel, and a probe, are arranged on a dark blue, textured surface. The instruments are rendered in a semi-transparent, blue-tinted style, creating a sense of depth and precision. The background has a fine, repeating pattern of small dots.

by  Surgitrac[®]
Europe

OPHTHALMOLOGY . OPHTALMOLOGIE . OPHTHALMOLOGIE

We are an established manufacturer and distributor of single-use ophthalmic surgical instruments, and procedure packs.

We sell our products using a global network, of authorised distributors.

We offer :

- Quality assured, CE marked products, manufactured to internationally recognised standards.
- ISO 13485:2016 certified manufacturing.
- Transparency in our supply chain : no forced, or child labour is used during our manufacturing.
- A continuous supply of products, due to our capacity to manufacture millions of instruments each year.
- Private label manufacturing.
- Over 10 years' experience in the manufacture of surgical instruments.
- Customer support.

www.surgitrac.com

Nous sommes distributeur d'instruments chirurgicaux ophthalmiques à usage unique, et de packs de procédures.

Nous vendons nos produits en utilisant un réseau mondial de distributeurs agréés.

Nous offrons :

- Qualité garantie, produits marqués CE, fabriqués selon des normes internationalement reconnues.
- Fabrication certifiée ISO 13485:2016.
- Transparence dans notre chaîne d'approvisionnement : aucun travail forcé ou effectué par des enfants n'est utilisé lors de notre fabrication.
- Un approvisionnement continu de produits, grâce à notre capacité à fabriquer des millions d'instruments chaque année.
- Fabrication de marques privées.
- Plus de 10 ans d'expérience dans la fabrication d'instruments chirurgicaux.
- Support client.

www.just-one-use.com

Wir sind ein etablierter Hersteller und Vertrieb für ophthalmologische, chirurgische Instrumente und Packs.

Wir vertreiben unsere Produkte über unser globales Netzwerk ausgesuchter Distributoren.

Wir bieten :

- sichere Qualität, CE zertifiziert, hergestellt nach internationalen anerkannten Standards ISO 13485:2016 zertifizierte Herstellung.
- Transparente Lieferkette : Produktion ohne Ausbeutung oder Kinderarbeit
- Lieferfähigkeit der Produkte aufgrund Produktionsfähigkeit für Millionen von Produkten jedes Jahr
- Private Label Hersteller
- über 10 Jahre Erfahrung in der Herstellung von chirurgischen Instrumenten
- Kundenbetreuung ansässig

SPRING HANDLED

Just Quality // Qualität der Herstellung und einwandfreie Ethik.

Unsere Instrumente sind CE-gekennzeichnet und werden in Übereinstimmung mit den aktuellen internationalen Standards hergestellt. Zu den Fertigungsprozessen gehören Qualitätskontrollen und Prüfungen, die Reproduzierbarkeit und die Qualität der auf den Markt gebrachten Geräte garantieren. Wir bemühen uns, ethisch und verantwortungsvoll zu handeln.

fabrinal
EYE CARE

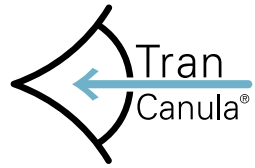

The Tran Canula® is a sterile and single use irrigation cannula used by physician in controlled environment to clear the pseudo-exfoliative particles in the anterior chamber of the eye. Unlike a conventional single jet irrigation cannula, this new instrument is characterized by two distinct water jets separated from each other by a 30° angle. Thanks to the unique design of the cannula and the laws of micro-hydrodynamics, these two independent fluid streams merge into one, more powerful, since they touch an obstacle.

TRAN CANULA®, TC- 01, SPECIFICATIONS

- Reference : TC- 01
- Cannula length : 19 mm
- Radius of curvature : 25 mm
- Outside diameter : 0.8 mm
- Design : Dr. V.T. Tran

TRAN CANULA® PACKAGING

- In a double sterile blister pack ; single use only.
- Packaging : 5 pieces
- 205 x 57 x 45 mm

La Tran Canula® est une canule d'irrigation stérile à usage unique utilisée par le médecin dans un environnement contrôlé, pour éliminer les particules pseudo-exfoliatives déposées dans la chambre antérieure de l'œil. Contrairement à une simple canule d'irrigation à jet classique, ce nouvel instrument est caractérisé par deux jets d'eau distincts séparés l'un de l'autre par un angle de 30°. Grâce à sa conception unique et aux lois de la micro-hydrodynamique des fluides, ces deux jets indépendants fusionnent en un seul fuseau liquide, plus puissant, dès lors qu'ils touchent un obstacle.

TRAN CANULA®, TC- 01, SPÉCIFICATIONS

- Référence : TC- 01
- Longueur cannule : 19 mm
- Rayon de courbure : 25 mm
- Diamètre extérieur : 0.8 mm
- Design : Dr. V.T. Tran

TRAN CANULA® PACKAGING

- Sous double blister stérile, à usage unique.
- Emballage : 5 pièces
- 205 x 57 x 45 mm

Tran Canula® ist eine sterile Einweg-Spülkanüle, die in kontrollierter Umgebung von Ärzten angewandt wird, um die pseudoexfoliativen Partikel aus der vorderen Augenkammer zu entfernen.

Im Gegensatz zur herkömmlichen Einzelstrahl-Spülkanüle zeichnet sich dieses neue Instrument durch zwei getrennte Wasserstrahlen aus, die zueinander in einem Winkel von 30° stehen. Dank des einzigartigen Designs der Kanüle und aufgrund der Gesetze der Mikrohydrodynamik verschmelzen diese beiden unabhängigen Flüssigkeitsströme zu einem einzigen stärkeren, sobald sie ein Hindernis berühren.

TRAN CANULA®, TC- 01, CHARAKTERISTIKA

- Kennzeichen : TC- 01
- Kanülenlänge : 19 mm
- Krümmungsradius : 25 mm
- Aussendurchmesser : 0.8 mm
- Entwurf : Dr. V.T. Tran

TRAN CANULA® VERPACKUNG

- In einer doppelten sterilen Sichtverpackung ; zum einmaligen Gebrauch.
- Packung : 5 Stück
- 205 x 57 x 45 mm
