THE SKURRAYS WILTSHIRE FOOTBALL LEAGUE

Once again we have returned to Corsham Town Football Club to stage the ADDKEY SENIOR & FOUNTAIN TROPHIES Junior Knock out cup finals on the same day. The excellent facilities at South Bank, with adequate car parking to accommodate all supporters are the ideal venue for the finals.

Corsham Town Football Club having been promoted to the Screwfix Direct Western Football League at the end of last season, is enjoying their first season in the higher League and has had some excellent results. May we wish them continued success and this should be an example to other Clubs, what can be achieved with a hard working Committee.

The Management Committee and Member Clubs express their sincere thanks to the Directors of Addkey Print Ltd for their continued sponsorship of the Senior Cup Competition. Fountain Trophies of Bristol has continued to support the League in the form of sponsoring the Junior Competition.

With a repeat of last season's Addkey Senior cup final, we can look forward to another keen encounter, as both teams are in the running for the Premier Division championship. Congratulations are extended to the competing teams of both finals.

The Skurrays Wiltshire Football League greatly appreciate the staging of the finals by Corsham Town Football Club and also wish to record its appreciation to the sponsors and hope their names will be linked with the competitions for many seasons to come.

If the teams are level at the end of 90 minutes, extra time will be played. If the result is still a draw, the tie will be decided by taking of penalty kicks.

HISTORY OF CORSHAM TOWN FOOTBALL CLUB

Corsham Town Football Club was formed in 1884, with one of the earliest games on record being against the local village of Chapel Knapp. Most of Corsham's history has been lost in the midst of time and as yet no-one has carried out any thorough research into the club's past.

One thing for certain, is that Corsham's history has had many high and many low moments, this trend having been evident right up until recent years.

Before moving to the club's present home at the Southbank, Corsham played on an area of land adjacent to the present-day Recreation Ground. After the Second World War council houses were built on the pitch and after missing out on a chance to relocate to the Grove Field, opposite the cricket ground, Corsham Town Football Club was relocated to their present site, which is leased from The Methuen Estate.

Until recent years the only glory Corsham had experienced in living memory was their Wiltshire Senior Cup victory in 1976. They also won promotion to the Wiltshire County League Division One in the same year. The years preceding and following this successful season were spent travelling up and down between the two senior county leagues. Each time Corsham looked like building a successful squad players would be tempted to join the neighbouring Western League clubs of Chippenham, Melksham, Calne, Devizes or Westbury.

The early 90's saw another period of rebuilding and under the management of John Mason a squad of youngsters began to learn their trade. John Mason didn't stay with the club and many of the players once again joined Western League clubs, although the foundations of the club's current successes had been firmly laid.

Gary Lock was the manager who brought elusive glory back to the club. Initially reaching the semi-finals of the Addkey Senior Cup in 1995, the team finally losing to Melksham after a replay. The squad was strengthened with some youth players and the return of Western League players and in 1996, he managed the team that won The Addkey Senior Cup, thrashing the favourites Pinehurst 5-0 in the final at Pewsey, with four of the goals coming from teen sensation, Dave Kilmurray. This was exactly 20 years after Corsham's last trophy win and it was also Gary Lock's last game at the helm.

A former Corsham player in his youth and a member of the Addkey Senior Cup winning team, Pete Tripp was appointed player/manager for what would be the club's most successful years to date. In Pete's first season the club was pushing for all three major trophies, The Addkey Senior Cup, The Wiltshire Senior Cup and The Division One Championship. After some notable victories including a trilling 4-3 victory over Purton in the semi-final, the Wiltshire Senior Cup was the first cup in the cabinet.

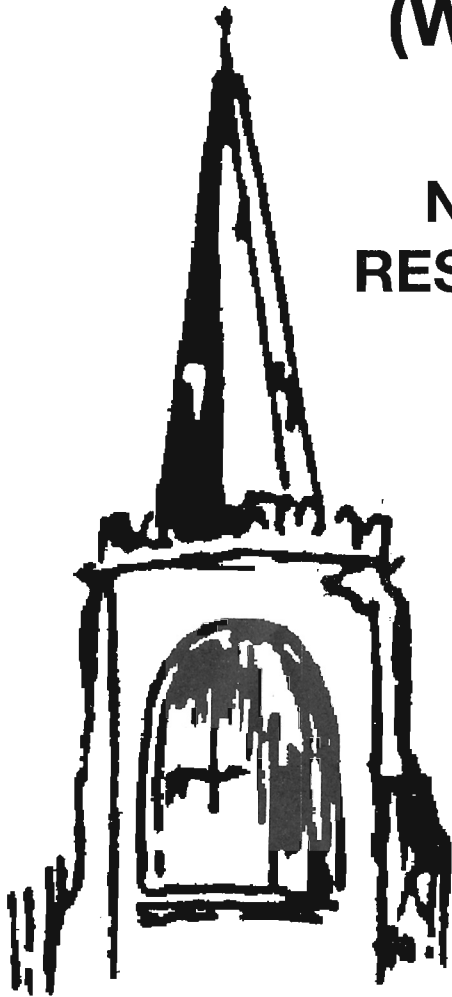

The league was well-contested and Corsham managed to claw back a Shrewton 12 point New Year lead to go top with one game each to play, both against Bradford Town. Corsham needed all three points to lift the championship but a strong Bradford held them to a draw. When Shrewton visited 2 weeks later a weakened Bradford were no match for them and the title was theirs. Corsham exacted their revenge on Bradford by beating them the following Saturday in the final of the Addkey Senior Cup.

In 1997 the decision was made to apply to the Western League and, although going out of both cup competitions early in the season, the dream was realised when Corsham lifted the Championship for the first time in the know history of the club.

Recent achievements have not been confined to the pitch as the early 90's also saw major changes in the running of the club with John Gingell taking over as Chairman and virtually a brand new management committee. The new clubhouse was built and then under the leadership of Dick Brown a successful lottery bid was made enabling the building of new changing rooms and all weather training facilities. This season Colin Hudd has been elected Chairman and is aiming to emulate his predecessors and successfully lead the club through its first years in the Screwfix Western League.
