

Minnesota Homeopathic Association Grand Rounds

– Nov 7th, 7:00 – 8:30 (6:45-7:00 social)

Treating Autism and Autism spectrum disorder with Homeopathy

Speaker: Sujata Owens, CCH, RS Hom (NA), Homeopathic Master Clinician

Autism, the nation's fastest-growing developmental disability, afflicts an estimated 10,000 people in Minnesota. Please join us for a **video case presentation**. Sujata will present various video cases of Autistic children that are doing well enough to be back in the regular school system. All these children were treated by observing Hahnemannian principles of Classical Homeopathy.

We know you want to be at the forefront of successfully treating such cases. So this presentation is for you.

While treating your own cases, if you have wondered

“When can I use Mercurius or Thimerosol to treat an autism spectrum case?

Or when should I do constitutional prescribing?

Or how do I manage a case once I have given the constitutional remedy?

Then you do not want to miss this video presentation to understand, decipher and learn from successfully treated cases.

Sujata Owens, vitalforceconsulting.com, has been practicing classical homeopathy for 26 years in Northfield, MN. She is one of the co-founders of MHA.
