Out of Hours Access to End of Life Medicines via Rapid Response, NHS111 and the Palliative Care Consultant ONLY

South Warwickshire Foundation Trust have commissioned a service within SWFT pharmacy to support access to End of Life Medicines on the rare occasion that medicines cannot be obtained through the normal routes when pharmacies are not open.

This service may only be accessed by Macmillan, Rapid Response, District Nurses or Palliative Medicine Consultant, who will contact the out-of-hours GP based at Warwick Hospital.
