CHART KEY: We have created three categories of recommended doctors. **1. UCNS Cert Category:** includes doctors who are board certified in headache medicine. Doctors who are UCNS certified have passed a high-stakes examination and beginning in 2020 they will be required to meet learning and knowledge assessment activities on an annual basis. **2. CAQ Cert Category:** includes doctors who have received headache medicine certification from the National Headache Foundation. Doctors who are CAQ certified must complete 60 hours of headache related education units and pass an examination every five years. **3. Patient Rec Category:** includes doctors who are recommended BY patients FOR patients, some of whom are headache medicine certified and some not. We included this third category because of the awareness that most people with migraine do not have access to a certified headache specialist. If someone is not certified by headache medicine, they are here just described as a "headache specialist" but with no credential or other relevant title.

DISCLAIMER: Please note these names are for informational purposes and do not imply an endorsement of any kind. Please let us know if you find any of our links broken or information incorrect and we will do our best to fix it in a timely manner. As this list is meant to be a living document, please email us any additional helpful doctors and we will add them in.
