# Permissions

Special permission sets are created to allow user access to active and closed disputes and a bad debt ledger, and configuring the app.

## Assign Permissions

The app provides following permissions to be assigned to users:

**Permission Set ASQiT-BD-ADMIN. Admin (Setup Only)**

**Access** Change Dispute Management Setup; create, manage, or remove dispute reasons, closure reasons and bad debt statuses.  
**Restrictions** User does not have access to disputes or bad debt ledger.

**Permission Set ASQiT-BD-EDIT. Credit Controller (Edit)**

**Access** Perform any activities, related to creation and management of disputes and bad debts.  
**Restrictions** Permission set does not allow changing setups or managing dispute reasons, closure reasons or bad debt statuses.

**Permission Set ASQiT-BD-VIEW. Credit Controller (View)**

**Access** View all data within Disputes and Bad Debts.  
**Restrictions** The permission set does not allow any data changes for the user.
