GARDEN CENTRE EST. 1976

# CREATE *Your Dream* TERRARIUM

## *Follow the Tips below:*

- *Before planting, decide on the design of your terrarium: where to place any rocks or pieces of driftwood, tall & short plants, & where to create mounds in the soil to shape a beautiful landscape.*
- *Choose open or closed glass containers.*
- *Choose dwarf or slow growing plants.*
- *Use gravel to create a drainage layer for keeping water away from the roots.*
- *Add the potting mix at least 2 inches.*
- *Remove the plants from the pots & loosen the roots from the soil.*
- *Get creative - combine the plants by colours, shapes & sizes. Plant & press gently around.*
- *Water the plants using a spray bottle or watering can with a rose.*

**Address:** Hitchin Road, Codicote,  
Hertfordshire, SG4 8TH  
**Phone:** 01438 820412
