Flylight Airsports Ltd Terms and Conditions V1.2

Prices:

Prices can be subject to change at any time up to placement of order. Once order is placed and acknowledged the acknowledged price will be held firm. Prices are ex works for Composite parts (Toulouse France), options (Sywell UK). Main Airframe kit Ex works Bad Sarrow (Germany).

Payment terms:

A 30% deposit will be required with the order. Payment for the kit parts in full will become due within two weeks of the dispatch date alert from the overseas factory. Final payment request will then be made and payment should be made within 7 days. The company shall charge interest on overdue payments of 5% above bank rate.

Delivery date:

On receipt of order a delivery estimate will be given. The company will use its best endeavors to meet estimated delivery dates. However should suppliers for the company not deliver necessary materials / components on time, or other circumstances beyond the control of the company occur to delay delivery of the product, then the company cannot be held liable for any form damages or return of deposits held. Deposits may be refunded on request if delivery date is greater than 6 weeks beyond the written estimate.

Warranty of quality:

The company warrants that parts and components shall be free from defects in workmanship or materials that render them not fit for purpose or outside of the design UK approval status. In the event that any parts are defective, within 1 year the company shall repair or replace same. Engines have specific warranty conditions as specified by the engine manufacturer. Specific requirements for warranty registration of engines is the responsibility of the purchaser. The engine manufacturer's procedures for report and settlement of warranty must be followed by the purchaser. Except as herein stated the company shall not be liable for any damages or for the breach of any warranty, express or implied, or for any further obligation or liability on account of the products covered by this agreement. Because of the homebuilt status of the aircraft, no labour is covered by this warranty.

Warning:

This product is supplied as a 51% Amateur Built Aircraft kit. As such the builder, not the company is deemed the manufacturer of the finished aircraft, and as such must take full responsibility for the construction and safety of the aircraft. Every customer purchasing this aircraft or components, whether directly or indirectly from the company is warned that flying amateur built aircraft is not as controlled an activity as other forms of certified or commercial aviation. As a result parts are manufactured from commercially available materials and components, some of which are not specifically designed for aviation use. Bearing in mind the above every purchaser must ensure they fully inspect every purchased item on delivery, and before each flight thereafter and they must make themselves aware of all trends and changes which may make a particular item unsuitable for the use it was initially purchased. They must also satisfy themselves that a purchased item is suitable for the use to which they intend to employ it. The company can offer advice, but the final responsibility for the use of goods purchased rests solely with the purchaser (whether direct or indirect)or other user who employs such goods at his own risk. The warning applies to every part. Item or service offered by the company and acceptance of, or payment for goods is an implicit acceptance of this warning.
