

Choir of the University of Environmental and Life Sciences of Wrocław **POLAND**

The members of the choir are mostly students of the University of Environmental and Life Sciences, but some of them are students of other Universities in Wrocław. Since 2009, chorists work under the conduction of the professor Alan Urbanek.

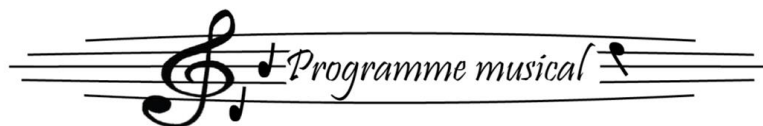

The choir is actively involved in the musical life of Wrocław with a large musical repertoire composed with a'capella works, great oratorios and with its participations at year-end galas.

The ensemble has won numerous prizes in Poland and internationally. It has also accompanied during two consecutive years the internationally renowned Polish singer Piotr Rubik in tours in the United States of America and Canada.
