OPPORTUNITIES FOR A INDEPENDENT AND FOR FILLING LIVE

We create jobs.
We are looking for scholarship recipients.
We have a safe and loving space.

Maker Space*:

Our team and materials at your disposal. You can bring your own materials or use ours.

The cost of workshops varies according to the scale of the project and the design of the piece to be created.

Individual orders**:

Each piece is unique. Our clients can choose the materials, composition, and design. We create high-quality custom designs according to their tastes and needs.

Machinery and materials***:

We have various machines and tools for working with wood, metal, glass, leather, and skin.

We have a painting section.

We work with high-quality raw materials, reclaimed materials, and discarded products.

We are looking for scholarship recipients**:

Companies or individuals who can provide monthly financial support to generate employment and a better way of life for:

Cancer survivors

Young individuals

Single mothers

Older adults

People with various types of needs

Testimonio Brian

Hello, I'm Brian Sosa. I'm 22 years old and I come from the State of Mexico, specifically from the city of Nezahualtcoyotl. I am a cancer survivor, having battled adenocarcinoma of the colon. After receiving my diagnosis and undergoing eleven surgeries that left me with disabilities, I found myself struggling with stress from the treatment and the inability to find fair and dignified job opportunities that would allow me to enjoy life more fully.

When the AmArteFORMA project came along, I felt privileged to be a part of it, considering the scarce job opportunities in Mexico for people like me. In this project, I find tranquility, emotional stability, and my passions in all areas of life, which allow me to continue developing personally and professionally within a supportive network that makes me feel secure.

In the future, I would like to continue dedicating myself to art, social media, social work, altruism, and providing therapy. My greatest desire is to leave a legacy that serves society and impacts the lives of many people, transcending through time. I hope to have a peaceful and dignified life to enjoy the miracle of my survival.

Within the AmArteFORMA project, I serve as the social media manager and content creator, a multidisciplinary plastic artist, in charge of the gallery and involved in the development of the structure of the AmArteFORMA organization. Additionally, I am an entrepreneur and a clinical art therapist in training with a holistic approach.

Testimonio Fatima

Hey! Hello, everyone! My name is Fátima Rivera, and I'm 23 years old. I've been a cancer survivor for almost 4 years now. I've been through a lot with medical treatments, doctors, and a lot of fear inside me. Over time, things started getting better, and I found a way to move forward. I met Uli and Salvador from the Amarte Forma project who gave me the opportunity to be part of their team. They taught me how to work with upcycling different materials, especially wood, giving pieces a new chance and added value that can turn into a pendant, a lamp, a clock, and more. Something similar happens with people when working on mental health and self-love; we become different or even completely renewed. Currently, I am constantly working on my self-love to be able to share it with many more people. I am a scholarship recipient and receive support to start my project in textiles. I am very happy to be part of this awesome team, and above all, I am very grateful for everything I have experienced here.
