

Aircraft enthusiast and 'spotters' Code of Practice at Popham Airfield.

Popham airfield welcomes all members of the public to our airfield where many flying careers have started following a day just watching the aeroplanes. Not everyone aspires to be a Pilot and we acknowledge the need to support enthusiasts across UK General Aviation.

The owners of aircraft are generally only too willing to speak with anyone interested in there, sometimes very valuable, flying machines. But, let's not forget, at Popham you are on a private site and your invitation to be here is not as given. Similarly, if you walk airside this is a privilege permitted only by the airfield management.

In the interests of safety and to protect the assets of our members and visitors please follow the following general rules without protest.

- 1) Follow the instructions of any Popham Staff member including Marshals.
- 2) Do not sit on any part of the airside apron or taxiways.
- 3) Do not touch any aircraft without prior permission from the owner.
- 4) Remain clear of propellers at all times whether they are turning or not.
- 5) Remain clear of the rear of aircraft that are starting up.
- 6) All children on the Apron must be accompanied by an adult at all times.
- 7) All dogs at Popham Airfield must be kept on a lead at all times.
- 8) If a Hangar door is closed do not attempt to enter or interfere with any part of it.
- 9) If a Hangar door is open do not enter without permission from the resident owner.
- 10) Remember your safety is also your responsibility
