Order (Special Conditions for Services overleaf)

The order includes the following (Note: Materials are rental goods):

- Installation and dismantling of water and wastewater pipes and connection of one terminal appliance
- Water supply connection including tap and shutoff valve ½" or ¾"
- A wastewater connection with 50 mm diameter (note: 65 mm diameter in the connecting sleeve area – i.e. height clearance of at least 65 mm is required for overbuilding with a raised floor.)

Note: A water connection is basically only possible if there is a water connection depicted inside the stand area in the hall plan. All hose and pipe connections are laid on the hall floor from the main connection (see hall plan)!

- A water supply pipe/wastewater pipe with a length of up to max. 10 m from the duct outlet. Longer distances will be charged according to item 4.10. Regularly flushed inlet; required separation of grease included (centrally)

1. All-inclusive package 1

- 1.1 (Art. 50050001) Installation with equipment not supplied by us (provided by exhibitor)** **EUR 519.00**
- Stand installation of water and drainage
 - Connection of one item of equipment (e.g. sink incl. water heater ...), (equipment supplied by exhibitor/ not rented from HILPERT or ABL BROCHIER)
 - plus water and drainage fee **EUR 49.90**
- 1.2 (Art. 50050002) Installation with equipment supplied by HILPERT or ABL BROCHIER** **EUR 479.00**
- See 1.1 but equipment must be rented from HILPERT or ABL BROCHIER (see Item 4 ff.)
 - plus water and drainage fee **EUR 49.90**

2. Extra equipment connection

(Art. 50050003) only as addition to package 1.1 **EUR 74.90**
 Connection fee for each additional item of equipment (equipment supplied by exhibitor/not rented from HILPERT or ABL BROCHIER)

4. Rental equipment from ServicePartner

(HILPERT/ABL BROCHIER)

Rental fee including installation only as addition to package 1.2 (except Item 4.5) (see back of Form S2.31 for illustration)

- 4.1 (Art. 50030070) Single sink/stainless steel**
 with base unit, 50 x 53 cm **EUR 139.00**
- 4.2 (Art. 50030075) Single sink with stainless steel**
 drainer and base unit, 80 x 53 cm **EUR 169.00**
- 4.3 (Art. 50030080) Double sink, stainless steel**
 with base unit, 80 x 53 cm **EUR 169.00**
- 4.4 (Art. 50030085) Single sink/stainless steel**
 with base unit, 80 x 53 cm drainer,
 with water heater mounted below **EUR 289.00**
- 4.5 (Art. 50030090) Single sink with stainless steel**
 drainer and base unit, 80 x 53 cm,
(pump-operated, for stand spaces
without water supply only) **EUR 329.00**
 • plus water and drainage fee **EUR 49.90**
- 4.6 (Art. 50030100) Kitchen unit,** 90 x 60 cm
 (with 2 hotplates, refrigerator, water heater) **EUR 399.00**
- 4.7 (Art. 50030105) Thermofix water heater** **EUR 149.00**
- 4.8 (Art. 50030110) Catering glass dishwasher** (for cups
 or glasses, program time approximately 3-5 min.) **EUR 429.00**
- 4.9 (Art. 50030115) Catering dishwasher** (for crockery,
 program time approximately 3-5 min.) **EUR 649.00**
- 4.10** For all installations a pipe length (water supply
 and wastewater pipe) of 10 m is included.
(Art. 5005005) Per each additional meter **EUR 59.90**
- 5. (Art. 50030120) Fitter's flat rate per hour** **EUR 64.90**
 This hourly rate does not include surcharges for working on Saturdays
 (+30 %). Sundays (+50 %) and public holidays (+100 %).
 Additional work will be billed on a time-and-materials basis.

The connection of a water supply is only possible if a water outlet is located within the stand (as shown on hall plan). Installations from the supply point to the equipment connection point must be laid across the hall floor.

Please submit a plan of the stand on Form S2.31, showing the accurate locations of the desired facilities.

Shut-off valves (ball valves) must be turned off every evening.

We use a raised floor: yes no

Height clearance of floor structure: _____ cm **Note: Height clearance of at least 65 mm is required for complete overbuilding of the supply and discharge pipes.**

To be fitted in the stand by the ServicePartner: _____

* If necessary, NürnbergMesse is entitled to have the service ordered provided by another ServicePartner. In this case, the customer will be notified of the other ServicePartner in good time. Please note that the general market situation and the current shortage of raw materials on the markets may lead to a price adjustment during the year. **Please refer to the OnlineShop of NürnbergMesse GmbH for the currently valid prices.**

Special Conditions for Services provided by the ServicePartners HILPERT/ABL BROCHIER (Water supply and drainage)

1. Integral parts of the Agreement

Integral parts of the Agreement in the following sequence and ranking are:

- the respective order forms and online forms
- these Service Terms & Conditions for water and wastewater
- the Special Conditions for Participation in the relevant event
- the General Conditions for Participation in Fairs and Exhibitions
- the General Contractual Terms & Conditions for the Service Manual (AVB)

In case of any conflict between these terms and conditions, the terms and conditions shall take a priority ranking position in accordance with the **mentioned order** of precedence.

2. Order, Execution of the Agreement

Services may be ordered only after receipt of stand space confirmation. The order must be accepted by NürnbergMesse. After the order, the Agreement is formed once the exhibitor receives an invoice with order confirmation from NürnbergMesse or one of the ServicePartners stipulated under Item 4. The automatically generated confirmation of receipt sent by e-mail directly after the online order has been placed does not represent an order confirmation. Acceptance of the order can also be made implicitly by providing the ordered services. A water and wastewater connection can only be provided if such a connection is already available at the rented stand space. The connections are indicated in the hall blueprint plan (integral part of the stand space confirmation). Even if an exhibitor has received the invoice/order confirmation from NürnbergMesse, they will receive a separate invoice/order confirmation directly from the ServicePartner in respect of special services ordered that are not included in the standard range in the (online) order form.

3. Stand layout sketch, Connections for equipment/appliances, Requirements regarding stand construction

The stand layout sketch that indicates the required connections shall be submitted by the exhibitor with the order or no later than 21 days prior to the start of the event. The exhibitor already received the hall blueprint plan, which indicates the site of the water and wastewater connection, with the stand confirmation. Connections for equipment/appliances can be situated directly adjacent to the water and wastewater connection. The ServicePartners shall endeavor to also install connections requested by the exhibitor that deviate from existing connections. The exhibitor has no claim to installation of

connections at the requested site, as this depends on the stand construction. If the exhibitor wishes to have a variant connection, e.g., away from the existing water and wastewater connection, it is up to the exhibitor to plan and execute the stand construction in such a way that the water and wastewater pipes can be laid safely and are covered and protected. In the event of questions in this regard, the exhibitor is requested to contact the appropriate ServicePartner.

4. Execution by the ServicePartner

The contractual services are generally executed by one of the above-mentioned ServicePartners. The exhibitor's contractual partner remains NürnbergMesse. Within the scope of the transaction of the order, the ServicePartners have the right to represent NürnbergMesse.

5. Express surcharge, Exclusion of warranty for orders on short notice, Additional costs for modifications

For orders on short notice or for which a sketch was submitted too late (less than 21 days' notice prior to the start of the official set-up), the following ex-press surcharge will be applied to the amount of the order:

for services at fixed prices	25 %
for cost-plus work	50 %
sketches	EUR 90.

In the event an order is received with less than 21 days' notice prior to the official beginning of set-up, NürnbergMesse – should it accept the order – assumes no guarantee that the service(s) can be performed properly and in a timely manner. If in such cases NürnbergMesse does not perform the services, does not complete them on time, or supplies defective services, the exhibitor can rescind the Agreement relative to water/wastewater or reduce the agreed upon compensation only if the statutory prerequisites have been met. Additional claims for compensation for damages or for reimbursement of expenditures are excluded unless the short notice of the order was not concurrently causative for non-performance or defective performance by NürnbergMesse. Liability for intentional or grossly negligent breaches of duty by NürnbergMesse or its vicarious agents and liability due to culpable harm to life, limb, or health shall remain unaffected. Should the exhibitor request that services already performed by NürnbergMesse or the performance of which has already commenced be subsequently modified, NürnbergMesse has the right – should it agree to perform these modifications – to charge the exhibitor for the actual additional work and expense that accrue for each modification.

Conditions

6. Compensation/Fees

None of the quoted prices contain the legally mandated, current value-added tax. The agreed compensation shall become due as soon as the order is accepted by NürnbergMesse. Calculation of the quoted prices has been pegged to wages based on a 40-hour work week. For services at fixed prices that have not yet been defined at the time stipulated for the start of set-up or that cannot be commenced at this time due to incomplete or unusable order information or instructions, a surcharge of 25 % and for cost-plus work a surcharge of 50 % can be added to the prices list-ed overleaf. A processing fee of EUR 50 plus the legally mandated, current value-added tax shall be charged for invoices that must be reissued due to erroneous or inaccurate information provided by the applicant (exhibitor). This fee shall be shown on the reissued invoice.

7. Prohibition of work by exhibitor, Penalty

For safety reasons, the shaft connection, and the connection of terminal equipment (e.g., sink, dishwasher, etc.) may be executed solely by ServicePartners of NürnbergMesse. It is prohibited to independently open connections, open supply shafts and extract water, tap existing pipes, connect neighboring stands belonging to other exhibitors, and independently connect terminal equipment or appliances. In the event of culpable breaches by the exhibitor against the aforementioned regulation, a penalty of EUR 500 per violation shall be assessed. We reserve the right to claim additional damages.

8. Security regulations to be complied with by the exhibitor

Cut-off valves (ball valves) must be shut off prior to leaving the stand. Costs for any damages that occur due to cut-off/ball valves not having been shut off shall be borne by the exhibitor. Use of rubber hoses of any kind during installation are not permitted under any circumstances.

9. Cancellation

Item 9 of the General Conditions for Participation in Fairs and Exhibitions shall apply to cancellations by the exhibitor.

10. Delivery of rental equipment/appliances to exhibitors, connection of terminal equipment/appliances/appliances

Rental equipment/appliances can only be delivered and connected during the official set-up phase; the same applies to the connection of terminal equipment/ appliances belonging to the exhibitor, which may also only be executed by Service Partners. Therefore, the exhibitor must contact the appropriate ServicePartner no later than 12:00 noon on the last day of set-up and request services. Should the service request not be made in a timely manner, the timely execution of services and/or timely delivery cannot be guaranteed.

11. Acceptance, Delivery, Claims

After completion, the service must be inspected and accepted by the exhibitor. The ServicePartner who performed the service(s), and the exhibitor shall draw up and sign an acceptance and delivery report. The exhibitor undertakes to inspect the services performed for defects and completeness at the time of acceptance. Visible defects or instances where the order is incomplete shall be recorded in the acceptance and delivery report. Should a defect be discovered a later date, the exhibitor shall notify the ServicePartner who performed the service(s) promptly after its discovery and request subsequent performance. Warranty claims that impose a time limit for subsequent performance cannot be asserted after the end of the event unless the right to subsequent performance did not or did no longer exist during the event. NürnbergMesse does not assume any liability for the consequences of pressure failure or pressure changes or for damages to the site.

12. Return of the rental equipment/appliances and furnishings and fittings

Water inflow and outflow materials, stop valves, faucets, sinks, dishwashers, and other equipment shall be made available to the exhibitor **solely** in the form of a **rental**. The exhibitor is responsible for the rental equipment and furnishings and fittings until they have been returned. The rental equipment and furnishings and fittings may only be dismantled by the ServicePartner. Dismantling and pick-up shall be conducted at the end of the last day of the event or by the end of the final day of dismantling. The rental equipment and furnishings and fittings may not be left behind by the exhibitor without being returned to the ServicePartner. Should the exhibitor wish

to vacate the stand early, the exhibitor shall contact the appropriate ServicePartner in a timely manner to agree on a return date and time. Wash basins and sinks must be returned in a clean condition. Should wash basins and sinks be returned without having been cleaned, the exhibitor can be charged a cleaning fee of EUR 100.

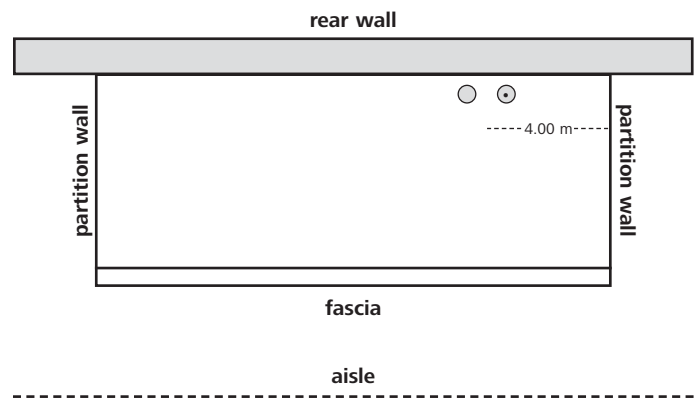

13. Exhibitor's liability

The exhibitor shall be liable in accordance with the statutory provisions in the event of damage or loss to the rental equipment or other furnishings and fittings. The exhibitor is responsible for any fault on the part of its employees or other vicarious agents.
