“NOTICE”

The information shown on this display board is for the families of The Town of Amite City and the surrounding area. In order to have a successful program, Amite Memorial Gardens Cemetery must have commitments from approximately 40 to 50 families.

Although the cost of a mausoleum crypt seems to be high, the overall cost between the mausoleum and a ground lot with burial vault and memorialization is not that far apart.

One further advantage of mausoleum burial is that the cemetery is responsible for the maintenance of the structure. This not so for ground burial, where any damage to the vault, tomb or memorial stone are the responsibility of the owner.

As you will note, financing is available at very affordable rates.

If you have an interest in purchasing space in the mausoleum or would like additional information, please sign the accompanying book. If there is enough interest, an announcement by the City will be made and a representative will contact families to make an appointment.
