Inteligistics

Benefits of Digital Transformation in Fresh Foods Supply Chains and **Grower/Shipper Cold Chain Operations**

Digital Transformation

- Eliminate Manual and Disparate Data Sources
- Reduce Costs
- Improve Supply and Cold Chain Efficiency
- Enhance Product Quality
- Gain Analytics and Operational Insights
- Traceability (FSMA 204) and End-to-end Visibility within Grower/Shipper Supply Chain

Inteligistics

Inteligistics provides flexible and powerful automation tools that enable grower/shippers, producers, retailers and food service providers to digitally transform their fresh foods supply chains and cold chain operations.

For over a decade, Inteligistics has been at the forefront of the Digital Transformation of Agricultural Supply Chains and Cold Chain Management.

We have partnered with leading growers and shippers to gain operational efficiencies and provide invaluable insights, with a significant ROI.

- Digital End-to-end Cold Chain Solutions
- Stand-alone Applications and Complete Systems
- Off-the-shelf IoT Technology
- Integrating into Existing Equipment and Processes
- AI/ML to Boost Efficiency and Throughput

Inteligistics

Eliminate Manual and Disparate Data Sources

- Reduce Input Errors by Digitizing Manual Data Entry
- Provide Uniform Data Platform for Faster and Better Insights
- Link Vital Information to Key References
- Offer End-to-End Cold Chain Solutions
- Create API's and Apps to Adopt Existing Customer Information

Inteligistics

Reduce Costs

- Trim Energy and Labor Costs
- Curtail Waste
- Increase Throughput
- Enact Disruptive Process Improvements
- Mitigate Risk

Inteligistics

Improve Supply Chain Efficiency

- Monitor Field Trucks and Control Yard Traffic
- Optimally Control Cold Storage Facilities
- Lessen Labor Needs
- Detect Issues Early in the Process
- Reduce Rejections
- Provide Visibility
- Track Product from End-to-End

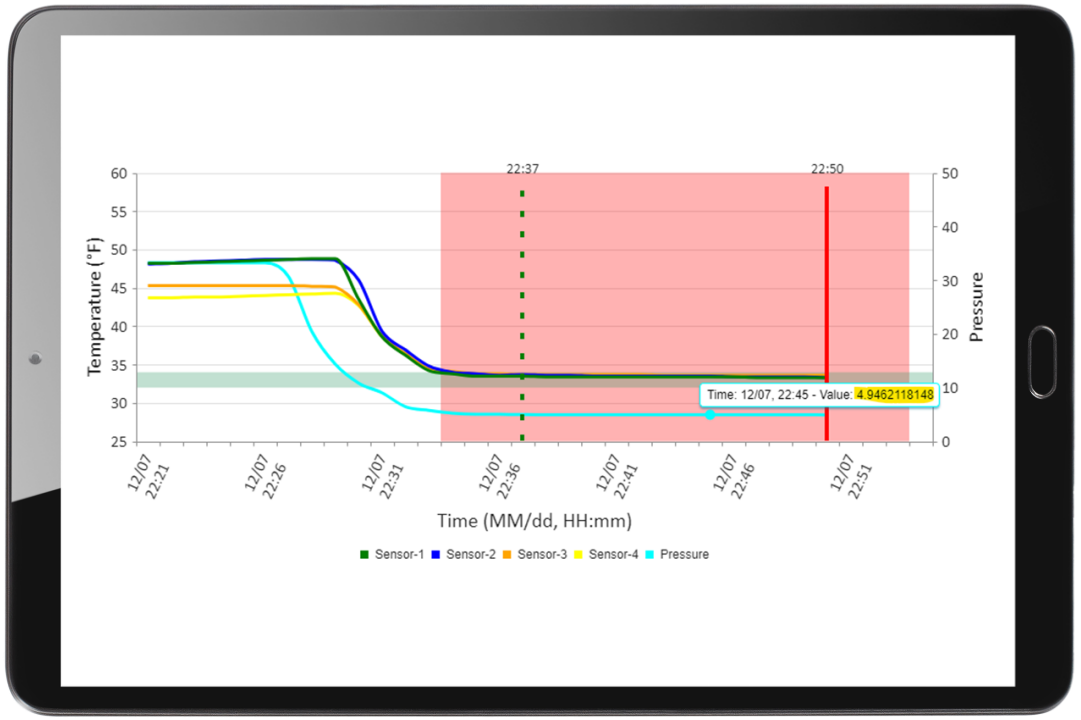
Inteligistics

Improve Cold Chain Efficiency

- Manage Heat Exposure
- Improve Harvest to Cool Times
- Automate Your Cooling Cycle
- Automate Manual Processes (AI/ML)
- Reduce Energy and Labor Needs
- Increase Throughput
- Mitigate Shrink and Invoice Deductions

Inteligistics

Improve the Performance of Vacuum Tube and Forced-Air Tunnels



Inteligistics

Enhance Product Quality

- Providing Crucial Remaining Shelf Life to Customers
- Optimize Inventory and Shelf Life (FEFO vs FIFO)
- Track temperature issues and correct in Real time, KPI’s
- Reduce Waste
- Increase Sales
- Increase Consumer Satisfaction and Loyalty

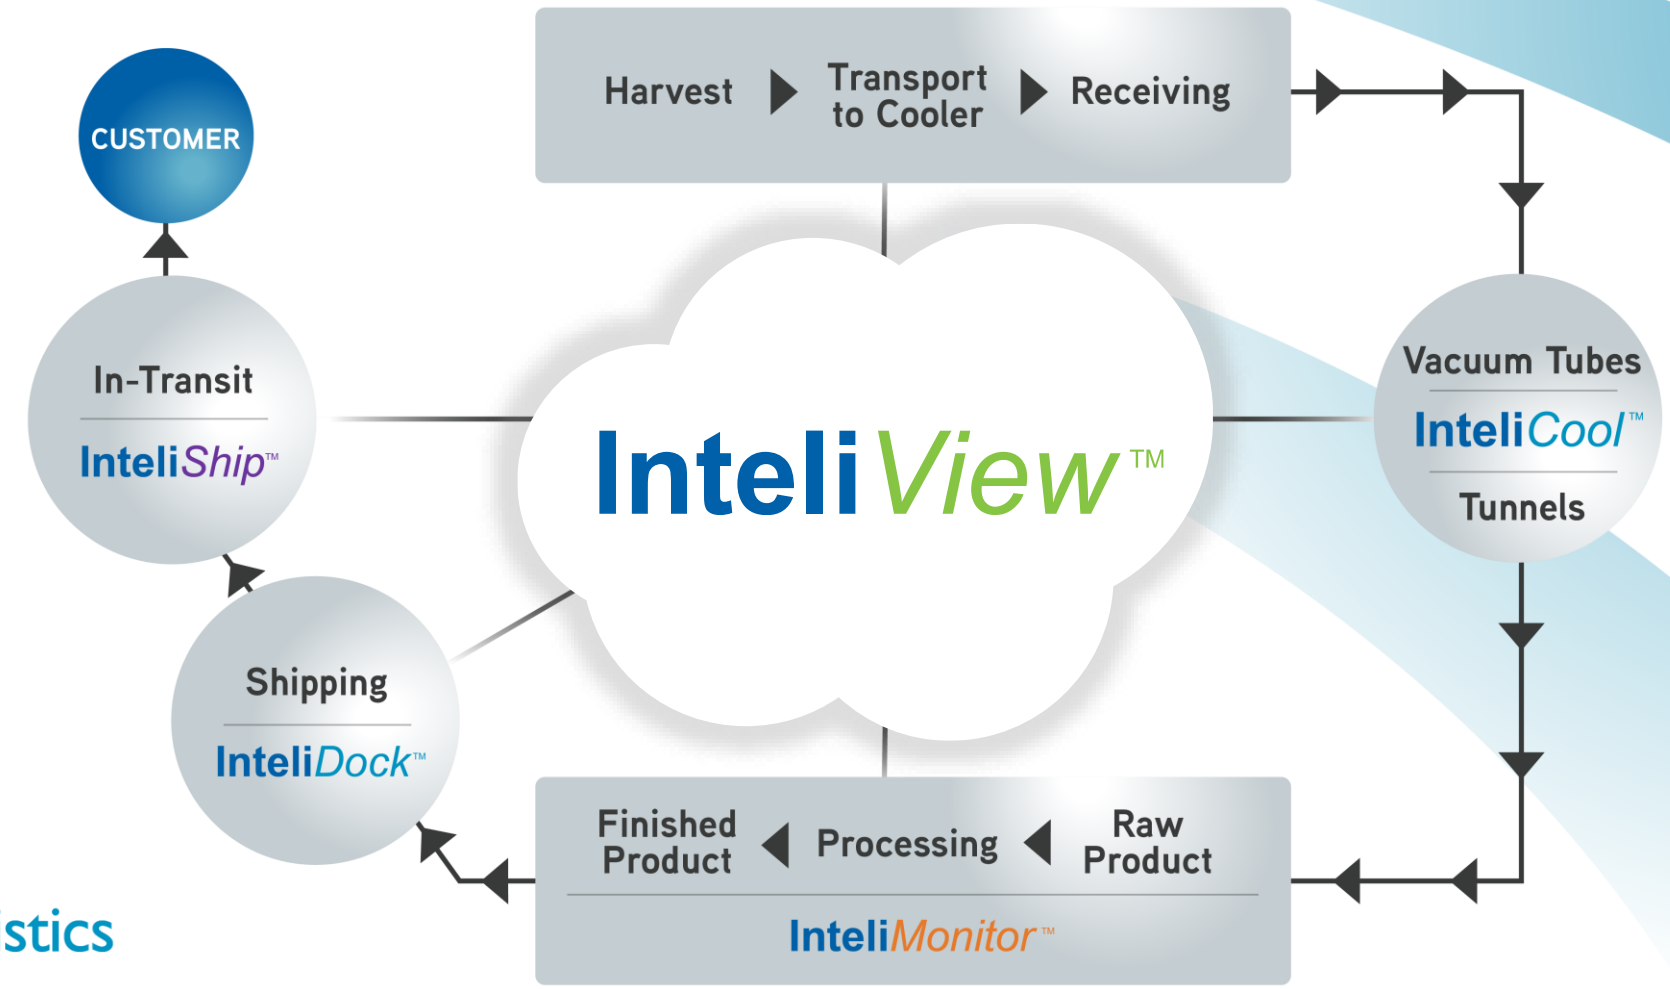
Inteligistics

Gain Operational Insights

- Improve Decision Making
- Be Proactive vs Reactive
- Support Sustainability and Food Safety
- Develop Meaningful KPIs
- Take Real-Time Corrective Actions

Inteligistics

End-to-End Product Visibility – with Inteligistics Solutions



Our visibility solutions adapt to your unique supply chain!

Inteligistics

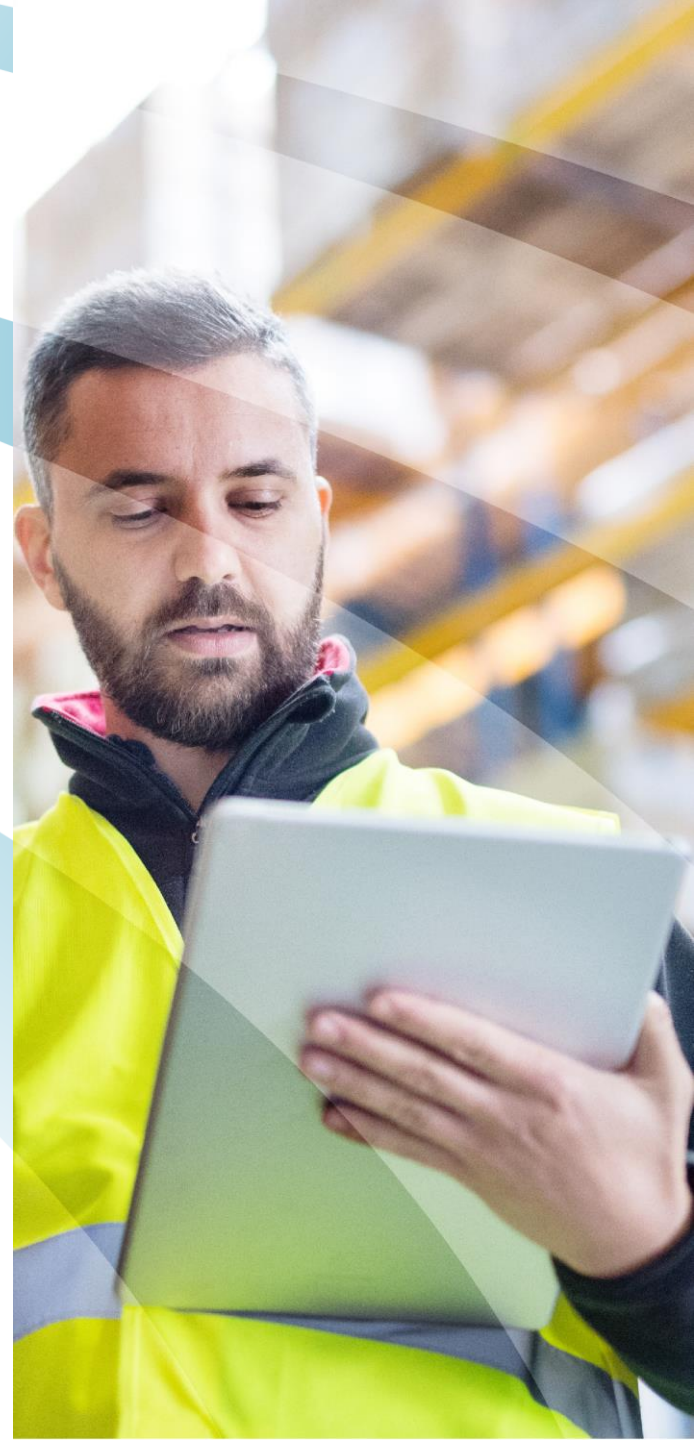
Instantly See Process Anomalies

Pallet: 223523
ON DISPLAY
URGENT
GTIN: 10123456543282
Ambient Temp: **45**
Time at Storage Receive:
11/20/2022 15:15
Current Shelf Life: **3**

Inteligistics

InteliView:
A New Way of Thinking – and Operating

- A Holistic Data Management Platform That Integrates Across the Fresh Foods Supply Chain to Improve Efficiency and Promote Better Decision Making
- Converts Regulatory Compliance from an Expense to Cost Savings and Revenue Gains



Inteligistics

Add Value to FSMA 204 Compliance

- Track and Instantly Report KDEs from InteliView Platform
- Provide End-to-End Transparency
- Automate Data Collection
- Predict Shelf Life and Optimize Inventory from DC to Store Shelf
- Reduce Waste
- Increase Sales

Inteligistics

Inteligistics: Your Digital Transformation Partner

- Improve Efficiency, Automate Labor Functions
- Enhance Product Quality
- Convert Regulatory Compliance Costs to Bottom Line Gains
- Increase Salability of All Available Product
- Provide Operational Insights
- Allow End-to-End Visibility
- Support Consumer Satisfaction

Inteligistics

Proven Experience

- Westinghouse – Digital Transformation of Nuclear Power Generating Control Rooms
- US Navy – Development of Supply Chain Logistics Platform for Global Asset Viability
- 10+ Years of Digitization and End-to-End Perishable Supply Chain Solutions
- Pioneer developing AI/ML Applications Disrupting and Transforming Supply Chains
