

Best in the World: The Quickenin

All of our wines have names and it is the label's job to bring these names to life. Multi-layered and complex, as befitting of the wines inside, the stories and labels are inspired by the lives of us and those of our growers. While we mostly concern ourselves with what is inside the bottle, it is also truly humbling to have been recognised for creating the best wine label in the world at the World Label Association Awards for The Quickenin.

A collaboration between our winemaker, Giles Cooke MW and label designer Mark Doherty, it was expertly printed by MCC Digital.

*'As life-forces stir, a connection is born and a personality created.
The Quickenin celebrates the vivifying power of nature.'*

Also GOLD award winner **GOLD** at FPLMA AWARDS.
