## About Us

United Deeds is leading systems integrator and a complete solution provider, providing advanced electronic systems covering the clients' needs in Low Current, Security and Safety, Structured cabling, Data, Communications, Audio & Visual & Automation. United Deeds made partnership with leading manufacturers and technology providers very well-known in the international and the local markets, taking in considerations the quality and return of investment to our valuable clients, we provide international quality certified products with our commitment to service customers through qualified and trained engineers and technicians. We look at the long term with our strategic plan to pursuit excellence and drive the technology market.

## Vision & Mission

Our goal is to become a company with strength in technology and providing integrated systems solutions for projects with our commitment to provide effective manner in terms of cost, quality and professional implementation.

""Our principle was founded to provide values on designing and delivering special solutions to satisfy the needs of our customers and provide high quality services and provide them with technical support by following the basic elements of our program.""

We are working to increase the capabilities of the company continued to offer technical implementation of quality projects at all levels. In that sense, we were able to access a wealth of technical and financial resources necessary for the implementation of projects of any size or level. We have established partnerships with many industry leaders and technology providers to enable value added in various aspects and areas of our customers and markets.

**Our experience is to provide those solutions and services, which made us one of the leading companies through working on the **design, supply, installation and maintenance** of a wide range of equip-ment, systems and services to many of the residential projects, com-mercial complexes, industrial buildings, government institutions, oil and gas, airports, ports and embassies.**

- **The brand is our touchstone.**
- **Customer satisfaction is paramount.**
- **Integrity is our way of life.**
- **Innovation leads to victory in the performance.**
- **Our success depends on cooperation.**

**Our strength is to ensure the success of ourselves and our clients' success in their projects and we strive to stay on top of today's and tomorrow's technology to ensure the best tools available to the user.**

# SERVICES

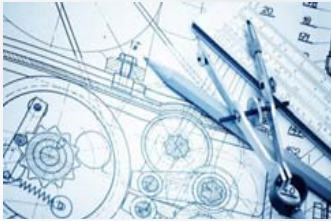

## Case Study

Create effective case studies for your business

## Installation

Well trained engineers and technician

## Design

Design from the scratch

## Testing & Commissioning

Highest standards and quality assurance

## Material Supply

Full range of material from multiple sources

## Operation & Maintenance

Fast response and full time running guarantee

## First & Second Fixing

Cost reduction and time management

## License & Support Renewal

Systems upgrades and end-user full technical support

# PRODUCTS & BRANDS

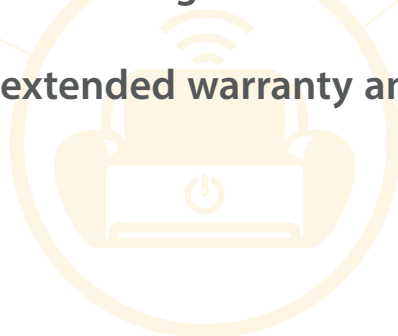

# Structured Cabling

We bring to you the tested electrical and optical solutions, catering to a wide spectrum of industries - Telecommunication, Building, Industrial and Utilities. With International standard to the Global market.

We provide a wide range of products and international brand names having a long history and references, with the highest quality and standards approved and recognized in the highest testing and certification organizations and labs.

We can provide these along with an extended warranty and support up to 25 years.
