

**the Power
of Connection**

Brugge, 02-06.11.2022

In times of Corona, we disconnected to protect our lives and those of our beloved ones.

The isolation has significantly impacted our immune system, which only stays strong in a constant interchange of bacteria by touching – shaking hands, embracing, kissing.

Not only do we depend on the physical connection, but our mind also depends on being connected for any feedback – a look, a smile, a word, a laugh, a different opinion.

The withdrawal seemed to be the perfect answer to the pandemic. It became our solution. However, anxiety, depression, and the inability to enjoy togetherness increased. Separation makes people ill. The continuous threat to existence creates stress.

In addition, the war in Europe brings lasting upheavals, the extent of which we cannot yet foresee but fear all the more.

To change our memory of withdrawal and distance, we need to change the solution; we need to reconnect to overcome the fears, the depression, the loneliness, the sadness, and the anger.

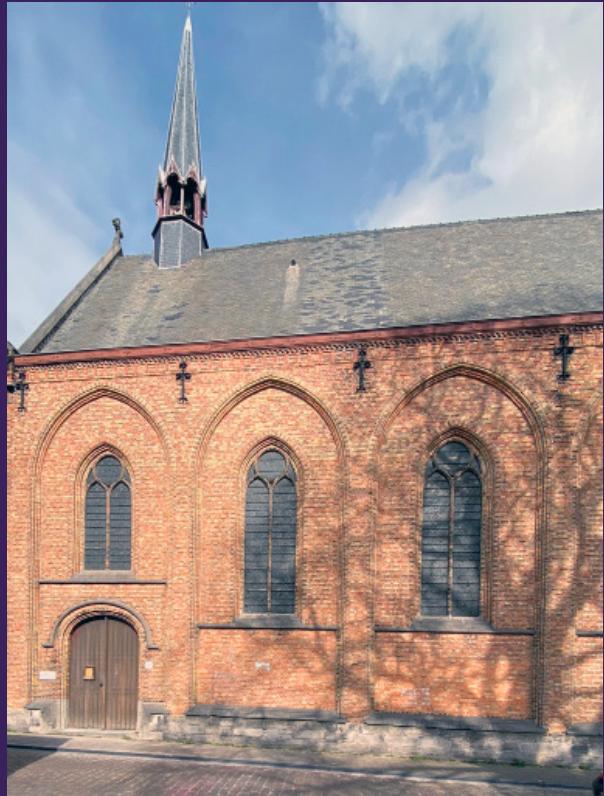

The power of connection not only keeps us alive but brings us a bucket of richness, intensity, vitality, and connectedness. Because this is what connection to ourselves and others is. It is about life.

Together with you, we will celebrate the power of connection in a four-day intensive. From Wednesday evening until Sunday noon, we will meet in a beautiful church in the medieval centre of Brugge in Belgium.

Stephanie and Bill created a program to meet, connect, share, understand, laugh, and enjoy.

Our Venue: A Church in the Heart of Bruges

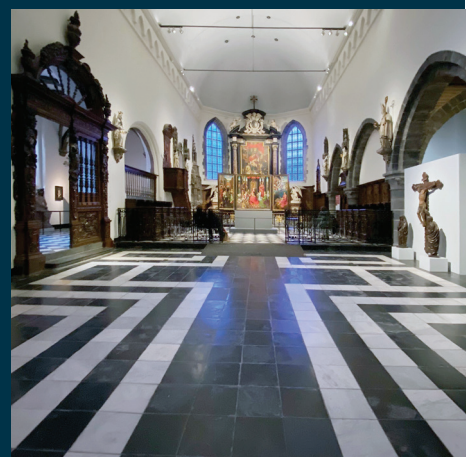

Right in the medieval heart of Bruges, we found the perfect venue for our intensive – the church of the Holy Family. Today, it is used for events and concerts and it will offer us the perfect space for sharing, constellating and enjoying ourselves.

Bruges is one of the most beautiful places in Europe

Bring your beloved ones and give them the gift of a few days in one of the most beautiful places in Europe. With its canals that criss-cross the entire city, the medieval Bruges is called the Venice of the North.

The whole town centre is a UNESCO world heritage and offers the most amazing buildings from different centuries and stunning art collections. Moreover: Bruges is the place for delicious food and – by the way – close to the seaside.
