

MASTERETCH 750 SERIES

The 750 series is a range of high performance high volume production etching equipment capable of processing the most most demanding chemical milling and signage applications.

MASTERETCH 750 ETCH/RINSE

Conveyor width	750mm (30")
Conveyor control	DC shunt motor with digital readout speed control
Conveyor drive	1 to 1 polypropylene drive gears
Pump	2.2kw glandless submersible unit
Filter	external access lift out filter baskets
Heating	3kw titanium element
Temperature control	Digital readout electronic thermostat
Spray banks	6 top 6 bottom, quick release fan jets
Carryover gap	4 sets squeegee rollers to prevent solution carryover

Rinse	
2 stages, pumped and fresh	
Pump	High torque magnetic drive unit
Filter	Lift out filter on input side of pump
Spray bars	Top and bottom spray bars
Fresh rinse	Top and bottom spray bars, overflow to pumped stage

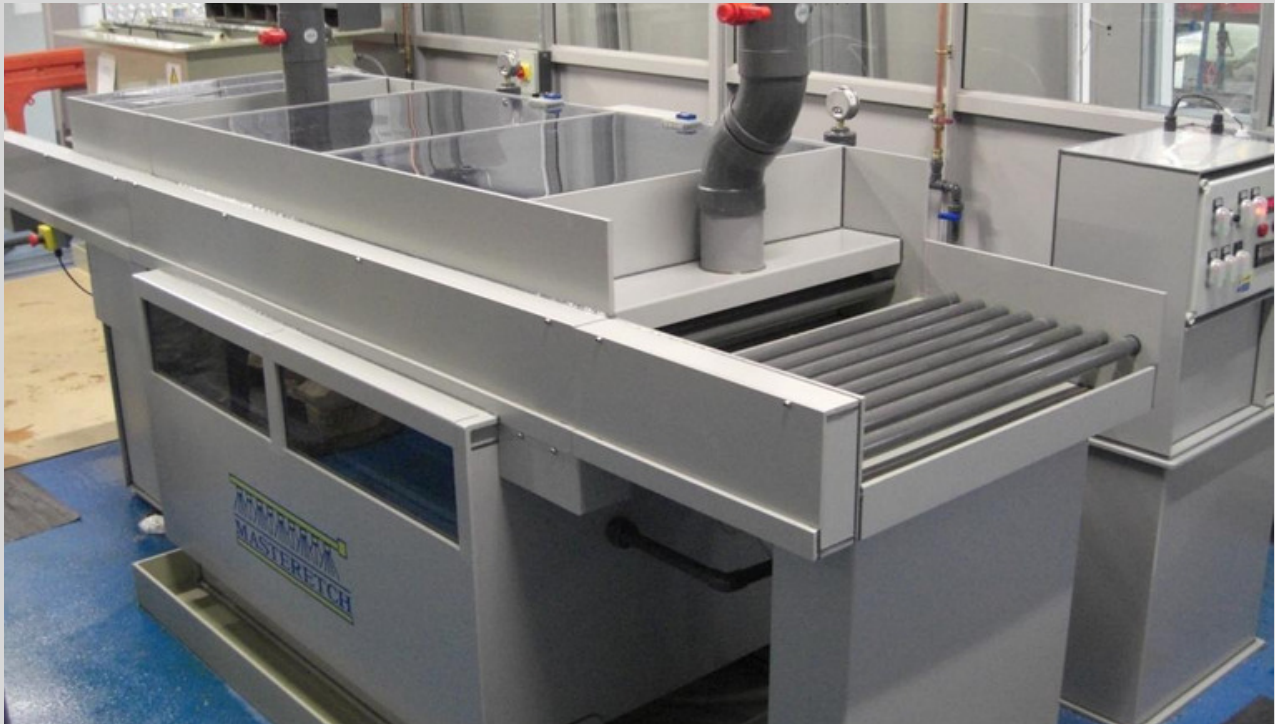

Dimensions	Length 1500 (60") Width 1200mm (48") Height 1200 (47")
Services	3 phase, ½" water in, 1 ½" drain

Safety

- ✓ Low liquid level cut outs
- ✓ Chamber access door interlocks
- ✓ Emergency stop switch to each end of line

MASTERETCH 750 DOUBLE ETCHER

2 STAGE RINSE - LOAD AND UNLOAD CONVEYORS

Conveyor width	750mm (30")
Conveyor control	DC shunt motor with digital readout speed control
Conveyor drive	1 to 1 polypropylene drive gears
Pump	2.2kw glandless submersible unit
Filter	external access lift out filter baskets
Heating	3kw titanium element
Temperature control	Digital readout electronic thermostat
Spray banks	6 top 6 bottom, quick release fan jets
Carryover gap	4 sets squeegee rollers to prevent solution carryover

Rinse	
2 stages, pumped and fresh	
Pump	High torque magnetic drive unit
Filter	Lift out filter on input side of pump
Spray bars	Top and bottom spray bars
Fresh rinse	Top and bottom spray bars, overflow to pumped stage

Dimensions	Length 1500 (60") Width 1200mm (48") Height 1200 (47")
Services	3 phase, ½" water in, 1 ½" drain

Safety

- ✓ Low liquid level cut outs
- ✓ Chamber access door interlocks
- ✓ Emergency stop switch to each end of line

MASTERETCH 750 SERIES ETCH LINE

COMPLETE AUTOMATED ETCHING LINES

Masteretch 750 Series Etching Lines

Masteretch 750 series models can be linked together to form complete inline automated etching lines. We offer a number of customization options to suit your production needs.

Standard Model range 750mm (30" wide)

- Model 750 Etcher/Rinse
- Model 750 Double Etcher
- Model 750 Triple cascade Rinse
- Model 750 Developer/Rinse
- Model 750 Stripper/Rinse
- Model 750 Load/unload/inspection conveyor
- Model 750 Dryer

Customization options include:

- Wide Format Conveyor (up to 1500mm (60" wide)
- Oscillating Spray Bars
- Additional Inspection Conveyors
- Automated Etch Chemistry Control Unit
