Rubber tips with wide base for all types of canes (aluminum and wood). They provide greater stability and security in support. In addition, they allow the cane to remain standing.

820119 Black Beach tip 19 mm

820122 Black Beach tip 22 mm

82019 Grey Beach tip 19 mm

82022 Grey beach tip 22 mm

Its main characteristics are: the adhesion in different types of terrain, wet floors, showers, etc. And because of the size of the surface it does not sink into the sand of the beach.

Its great flexibility allows an important part of its base to always support. Its special shape achieves a high degree of cushioning, reducing the injuries of elbows and shoulders of its users.

819

Rubber with bellows. It has a great capacity of flexibility that allows a constant contact of the base to the ground, achieving a high adhesion and great capacity of absorption to the impacts. Base diameter 5.5 cm.

Sizes: 17, 19 and 21 mm

821

Rubber tip. Its design allows the cane to remain vertical in most situations. Its large base gives more security and stability preventing the cane from sinking in sand, mud or wet areas. Made of rubber and with an inner metal ring. Metal base inside.

8291

Tripod Rubber.

Base: 7,5 cm
