About Our Company

Morningstar Doors and Windows serves as a distributor for a wide range of window and door products. We take pride in offering an extensive selection, including windows, entry doors, patio doors, and skylights, along with installation supplies. Our inventory includes commonly sized windows and patio doors that are readily available for pickup or convenient delivery. At Morningstar, we partner with top brands in the industry and provide exceptional expertise in product knowledge, blueprint take-offs, on-time job site delivery, and after-sales service and maintenance. When you visit our showroom in Farmingdale, you'll find full-size displays and professional product demonstrations. Should you require on-site product assistance, our dedicated and fully trained service department will promptly respond to and resolve any issues you may encounter.

We take pride in offering money-saving ideas instead of pushing unnecessary options for your project. Our business adheres to a simple principle: "treat people the same way you want them to treat you." Each sale holds great importance to us, and we prioritize exceptional customer service and satisfaction. Our goal is to treat you like family, ensuring you are fully content with the products you choose. We aim to provide you with the right products, suited perfectly for the job, at the right price, for years to come. If you're tired of the typical high-pressure, in-home pitch book presentations that demand both decision makers to be present and offer discounts only if you sign on the same day, you'll find a refreshing shopping experience with us. The staff at Morningstar caters to your needs without imposing a sale. We adopt a laid-back approach, as we understand the discomfort of being pressured to buy and avoid inflicting the same pressure on our clients.

Morningstar Doors and Windows stands out among competitors by offering a comprehensive range of quality products, exceptional customer service, and a commitment to treating our customers like family. Experience the difference with Morningstar and discover why we are the go-to destination for all your window and door needs.

What sets us apart from our competitors?

- Vast selection of unique products
- Prompt and punctual job site delivery
- Highly knowledgeable sales associates
- Spacious showroom featuring life-size displays
- Assistance provided before, during, and after the sale
- Exceptionally trained Service Department
- Contractors receive a store-credit rebate

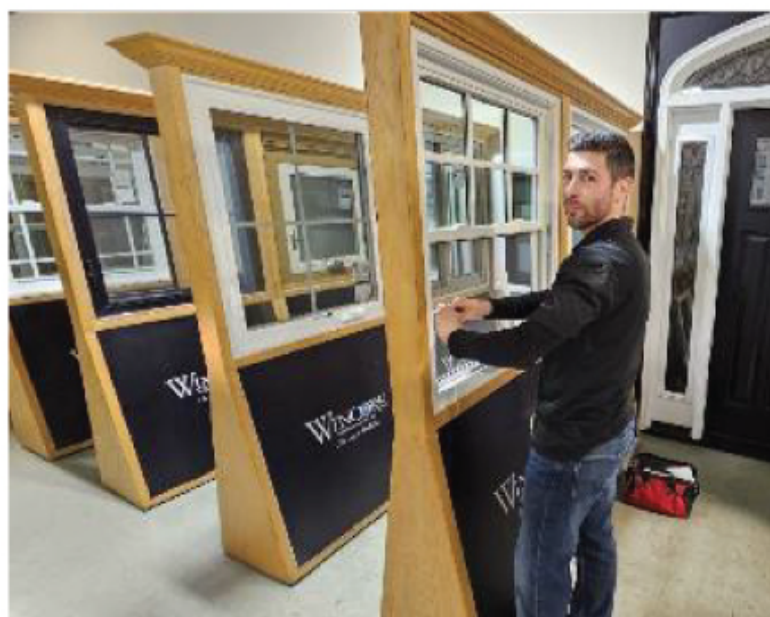

AIA

We offer many accredited AIA classes with various ceu topics, this can be done at our showroom or at your architect office.

SERVICES

Morningstar services what we sell, unlike other dealers who rely on third-party services that may cause delays or hinder proper correction. If an issues arises, simply contact us and we will promptly address and correct the problem. 631-465-9960 x 102

OFFICE

IS

I had an exceptional experience with MorningStar Windows in Farmingdale. From the start, everyone I interacted with during the purchase of my windows and doors exceeded my expectations with their outstanding service and expertise. I was looking for a very specific type of window to recreate a look I found in a magazine for my home. Tom, David, and Dan were incredibly helpful throughout the process. Unlike my past experiences at home improvement stores where I sometimes felt belittled as a clueless woman, the team at MorningStar treated me with respect and took the time to understand my needs. I cannot recommend them highly enough and will always choose them for my future home improvement projects.

Building a new house these days, are a challenge at any level of experience. I have built many. I went to Morningstar Doors & Windows because of their reputation, their products, but most of all...their knowledge and experience. I was not disappointed in any way. I purchased the Signature Line of Weathersheid Windows. I also purchased the Weathersheid sliders (excellent quality) as well as a custom made commercial looking front door with etched glass for privacy. All in black factory paint. Every window and door came in perfect. A big time saver right there! My carpenter installer was so impressed, he cancelled his Anderson window order for his own home build and ordered the Weathersheid product from Dave too!! This is all true info. I am not a relative or friend. But, I feel like I was treated like one of the "family" dealing with Dave at Morningstar. I would HIGHLY recommend any contractor or homeowner to spend some time with a true professional at their job....Morningstar Doors & Windows!!!

PROJECTS

JoAnn C Sofarelli

I give Morningstar Doors and Windows, Inc. a 5.0. The quality, workmanship are by far the Best in the Industry !! But we must take the most important look at the Family Owned Business that it is, and the Staff which is part of the Family. Once you walk into the Showroom you are greeted with a smile and ready to help. Then the fun begins you are in the world of I want it ALL ! Pure Quality jumps out WOW . At that point the Staff is there for a very calming affect and ready to give you the education of a lifetime . After all they have been in the Industry A Lifetime . I certainly hope whoever is reading this please do not take my word for it, go and enjoy the experience.

SHOWROOM

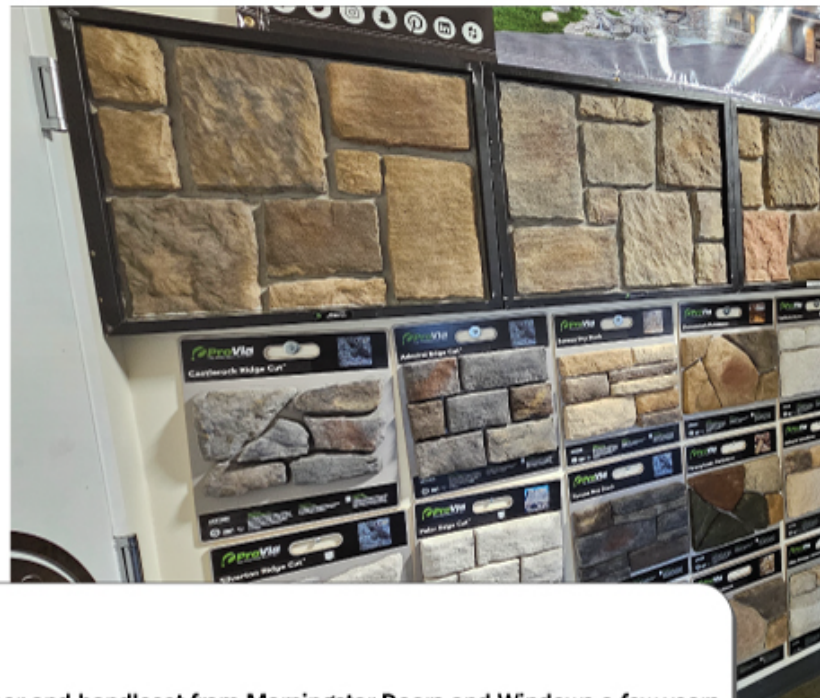

John Hartnagel

We bought a full suite of windows and doors from Morningstar and had a fantastic experience. Dave worked with us with incredible patience (we took almost a year to decide what we wanted while the plans were being drawn), and he helped us make good budget decisions that resulted in a savings of about \$95k while still maintaining the quality and look we wanted. Our Weathershield windows and doors were installed last week, and they look/operate amazing! Just as important, their post-install inspector picked up some minor cosmetic flaws, which are being fixed immediately (and without asking). Even our builder was impressed with the service!

SHOWROOM

Buddy Ficarelli

My Wincore handleset on my front door recently failed. I bought the door and handleset from Morningstar Doors and Windows a few years back. I believe I initially spoke with the owner when I called, and he told me that servicing previous customers is very important to their business. From there I was connected with Jordan and he quickly looked up my order and told me it was fully covered. Jordan ordered the new handleset and told me he would call me on Wednesday morning. Just got off the phone with Jordan. Handleset was delivered. Amazing customer service, considering I purchased this hardware 10yrs ago !

PROJECTS

Brian Cor

Good afternoon, I'm not someone who usually writes reviews but in this case I thought it was well deserved. A few years ago I had multiple windows replaced in my home. I chose Morningstar after visiting their showroom and learning a great deal of information about their product. I found that the windows were far superior in quality than the ones being offered in the big box stores. Now fast forward 5 years and you would think that my purchase would be long forgotten and I would be on my own when I have a problem. I want to make it clear that was anything but the case. My double hung window had an issue with its balancer after my cleaner had handled it. It would not stay up and become dangerous. I called Morningstar and was informed that it was a quick fix and that Jordan the company technician would come out to my home and replace the broken part and repair the window at no cost to me. Jordan was not only helpful but extremely nice to deal with. In conclusion I'm blown away by the level of high quality treatment you receive from start to finish with this staff and company!

PROJECTS

Michael Milov

This company sells a top of the line product. Never heard of Weathershield before, but my architect specified them for a custom house I am building. Was a bit skeptical. But David took his time to demonstrate all the features and construction of the windows. Now that windows are installed, couldn't be happier. Solid construction, top of the line finish and materials. Rolls-Royce of windows. Also, people of Morningstar are very professional and pleasure to deal with.

Charley Seide

The professionals at Morningstar are the most knowledgeable and courteous Door people of all I've researched. I have been through the Internet, store visits and friend recommendations with no success. From the time I called Morningstar through the education, ordering and payment they have been a pleasure to work with. it is a relief to find and work with these people especially when yiu are dealing with a large expense, their knowledge and professionalism makes it a great experience.

Maria M.

Dave Hauser is what makes Morningstar doors and windows so great. He is extremely knowledgeable, personable and responsive. He consistently goes above and beyond for his customers. We showed up at his store with 3 kids under 3 yrs old, which made it incredibly difficult to discuss what we were looking for yet Dave was exceptionally courteous & patient. We also had a tight budget and he came up with several ideas to help us save money. He worked with us from beginning to end to provide excellent customer service and make sure we received a great product. The rest of his team is fantastic as well. Jordan checked out our install to make sure it met the requirements for our warranty and was great to follow up with. The guys were always helpful and informative when I had questions about my order. Dave Sr. Handles deliveries. He was excellent with communication and for getting our orders delivered as soon as the product got to the warehouse. I really can't say enough great things about Morningstar and Dave Hauser. We found the best windows, for the best price and had a great experience during a super stressful home reno. I would confidently recommend them to anyone looking for doors and windows.

Melissa Jones

We were absolutely blown away by the knowledge and expertise of Dave Jr., and his presentation in the showroom left us feeling sure we were making the right choice with such a big decision for our home. We love that it is a family owned business, run by people who really know their product. He took the time to patiently answer all of my questions and concerns. Our windows were installed a few days ago. We chose to go with a black grid window and black french doors. They are AMAZING!!! Our contractors guys could not stop going on and on about how good the quality was. Literally everyone... and i mean EVERYONE has stopped us to say how great these windows look. Knowing what i know now, after learning so much in the presentation, i would never allow anyone i know to go with that big name company that spends all their money on advertising and none of it on the quality of their product. Their windows are junk compared to the windows we got from Morningstar. We could not be more pleased with the way everything turned out. HIGHLY RECOMMEND!!!
