SENTRY II SERIES 950

Electronic On-Demand Metered System

Your Sentry II is equipped with a microprocessor that keeps track of the amount of water used each day and adjusts itself to match your needs. If you begin using more or less water, the system automatically adjusts to the change in water usage. This means the water softener is meeting your demands for conditioned water in a customized way. You don't have to do a thing! The system does not regenerate unless it needs to. This saves you up to 50% in salt and uses less water making it economical and efficient too. The Sentry II uses state of the art equipment to provide you with a superior product and a continuous supply of conditioned water.

Benefits of the Sentry II Water Softening System

Softer skin and smoother hair

Do you have sensitive skin? Conditioned water can improve skin irritations and adds a healthy luster to hair leaving it soft and easy to groom.

Improved Dishwasher Performance

Dishwasher performance improves and your dishwasher will last longer because conditioned water prevents scale buildup in the water heater and water lines. Your dishwasher will run smoother and more efficiently.

Reduced spotting

Silverware and glasses will take on a new shine with the Sentry II water softening system. Whether you use an automatic dishwasher or you wash dishes by hand your dishes will be cleaner and you will use less detergent too.

Improved washing machine performance

The life span of your washing machine will extend with use of a Sentry II water softener by preventing mineral buildup and scale.

Laundry is cleaner and colors brighter

When you use a Sentry II water softener your clothes will last longer and they will maintain their color longer. The clothes will be cleaner and softer too. The washing machine will operate better and long. You will also save up to 70% in laundry detergent and soap!
