

CLARITY

BY NELLO WALL

CLARITY Convertible Pull Handle System 54/44 ADA Locking/Non Locking

CLARITY by Nello Wall's Convertible Pull Handle System allows change from Non-Locking to Locking Pull Handles on Glass Doors - on site and with minimal cost or disruption.

UNIFORM DESIGN appearance along aisles of glass office fronts. The aisle side of the standard handle is always 44" high and at ADA clearance height.

FLEXIBILITY to change from Non-Locking to Locking. A truly flexible system in that the locking and non-locking handles use the same holes in the glass door.

ACCOMODATION to all Key Systems in the locking handle. The system's handle accepts a Rim Cylinder which can be easily keyed to the building standard/master key system.

FINISHES AND HEIGHTS

Available in CLARITY standard pull handle Finishes: Brushed Stainless/Black/White/Bronze. Custom Handle Heights available to complete a design concept.

NON-LOCKING 44"

LOCKING ADA 54/44"
