"SOFTWARE FOR CREATIVE HARDSCAPES"

DISCLAIMER

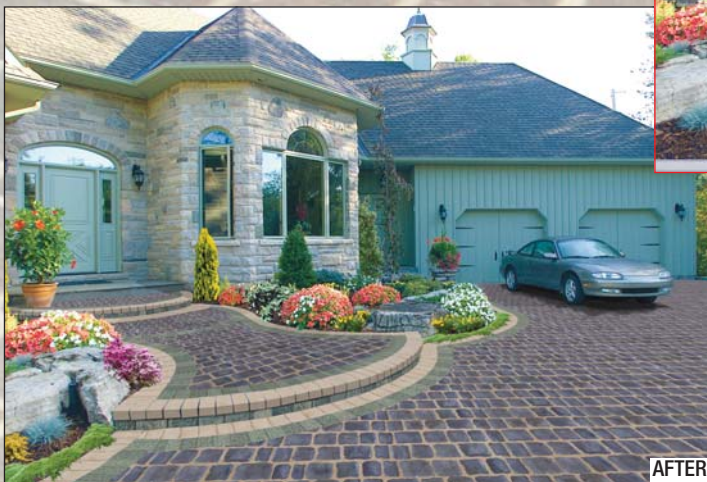

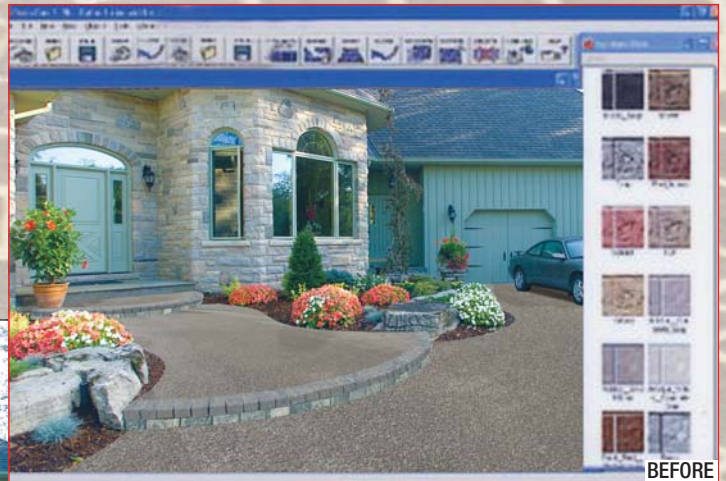

Creative Impressions make every effort to ensure an accurate reproduction of patterns & colours. However, due to the variation of PC's and printers quality and accuracy we strongly recommend that a sample of the chosen colour pattern combination is made before work commences. Creative Impressions cannot accept any liability for subsequent variation as such is beyond our control.

CREATIVE IMPRESSIONS

CREATIVE IMAGING SOFTWARE

Creative Impressions' IMAGING SOFTWARE enables you to take a digital photo of your client's job site, download the image to the programme and then overlay any one of over 1700 different images of either stamped, stencilled or stained surfaces, in many colour variations onto the picture, just as if it was installed.

This new imaging technology is the most advanced way to sell your services, you will win jobs over your competitors by using this programme as a sales aid
