

# HEARTS OF GOLD

## *Medical Fund*

Dear Friend of CAC,

We live in North Idaho where prey-driven animals exist even in our cities. Small, inexperienced animals like Winnie, a three-year-old solid black shorthaired cat, barely escaped death. She was found in February scared, hungry, and badly injured. With no collar or microchip to lead us to her owner, Winnie was warmly welcomed into Companions Animal Center.

Winnie had her wounds cared for and is still on medication. She spends her days at the Center peering out of one of the cat colony rooms always wanting a gentle touch whenever someone walks in. She is more than happy to greet you with a neck hug, too! Winnie has a way to go before she is ready to be adopted. Until then, she is in the care that YOU help provide for the animals.

So many animals who find themselves outside of their home environment get injured or attacked with no one to help them.

We are fortunate to have caring community members like YOU who will help provide medical care for these precious creatures.

Today, Winnie is feeling so much better and will steal your heart with one look!

**Won't you please provide medical care for the animals?**

**They desperately need your help!**

**Your donation of**

**\$25** will supply one rabies vaccine

**\$100** will purchase antibiotics to help fight off infections

**\$250** will provide veterinary care for animals like Winnie

**PLEASE CONSIDER MAKING THIS A MONTHLY DONATION**

## Looking for a happy ending

Rupert is twelve years old. He has a grade 4-5 heart murmur and is suffering from a degenerative joint disease in his hind legs. Last month Rupert was rescued from a hoarding situation where he lived with 30 other dogs. Many of those were pregnant. Sweet, kind, well-behaved, and very clean, Rupert greets everyone he meets with a wagging tail and those beautiful brown eyes.

**Without the proper medication, Rupert would be in constant pain.** Although he loves to be outside and go for short walks, he is hoping for a home to spend his remaining years with love and companionship. *Because of your financial support,* CAC can give Rupert the medical treatment he needs to give him a full life.

### **YOUR help is needed NOW to care for these animals**

Remember, **medical expenses NEVER end.** *These innocent animals need you every day of the year.* Please donate now and make it a monthly gift by checking the box below so we can continue to save lives every day. Or visit our website at [www.companionsanimalcenter.org](http://www.companionsanimalcenter.org) to schedule your monthly contribution.

**Any amount is greatly needed to purchase medical supplies and help pay down vet bills throughout the year.**

The animals will receive the best care possible through YOUR GIFT to the Hearts of Gold Medical Fund.

**YOU make the difference between life and death for these animals.**

**Remember, CAC is an independent nonprofit organization and is NOT a government agency.**

**CAC is 100% supported by animal lovers like YOU.**

**These animals rely solely on YOUR donations. Your gift today will save a life.**

Yes, I want to help more animals like Winnie and Rupert. Please accept my Hearts of Gold gift of \$ \_\_\_\_\_
