

– How does it work?

Time to talk?
Let's have a chat....

Your
Company

We can match your
organisation to an ideal
project that works just for you

You can choose the right membership for you

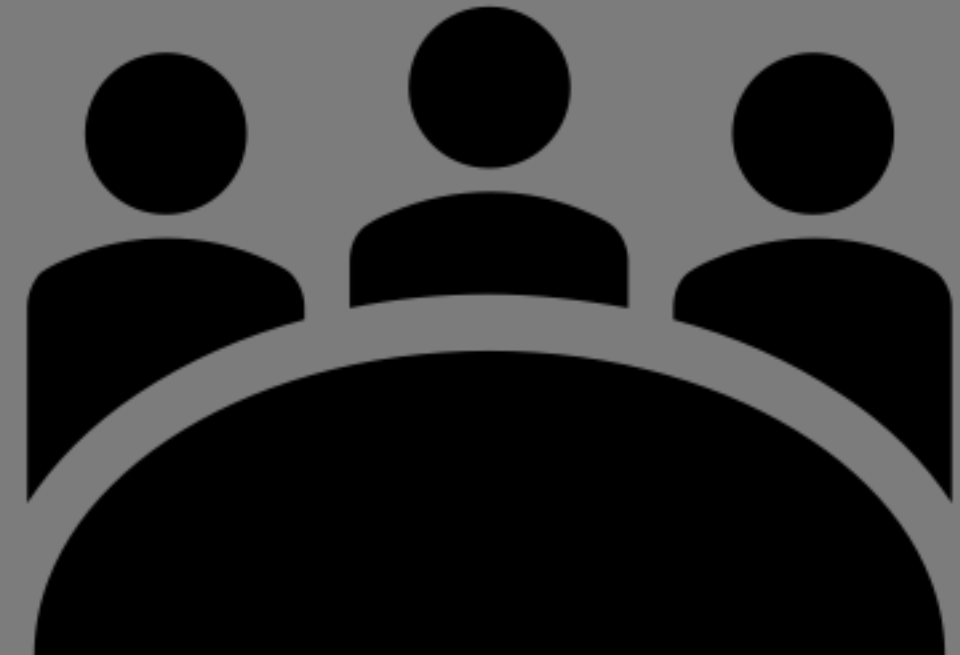

Hands Off: donate an agreed amount, no company involvement, you can use your support to validate green credentials

Hands Dirty: your team can get their hands really dirty through a series of organized activities with your chosen project. Increases team building and an understanding of the support you are providing to the project.

Sign up to an Ark Membership.
Allow your team members to
choose what projects they want
to be involved in through a
survey or open discussion.

ARK can then select some bespoke conservation projects just for you, they could be local or national, you decide...

Option 1:

Option 3:

Option 2:

Get what you want out of the
relationship – we will help you
to get totally involved
