Thank you for choosing TWR Watch Repairs. Part repairs usually take 7-10 days whilst servicing is usually 10-14 days. The process can sometimes take longer due to the availability of parts or unforeseen circumstances. We will call/email you when your watch is ready to collect. On rare occasions we may have to re-estimate on the work required however we will always call you first before proceeding.

I hereby leave my watch in the care of TWR Watch Repairs and agree that the description and the condition of my watch is accurate.
