

# TRACKING TO EV

**PROJECT TELEMATICS**  
TELEMATICS SIMPLIFIED

# *TRACKING TO EV*

Want to make the move to Electric Vehicles but don't know where to start?

We can take your vehicle tracking data and turn it into an operational guide in moving to an electric fleet.

We create a completely bespoke report based on your fleets movements.

## **ESTABLISHING THE FOLLOWING:**

- **Where you can take advantage of public charge points**
- **Where you might consider installing charge points**
- **Which electric vehicles would be suitable swaps**
- **The impact on your CO2 emissions**
- **Cost reductions based on fuel savings**
- **Impact on your operation in terms of resource hours to charge vehicles**

## NEXT STEPS

We use Power BI to analyse the data and we can even provide you with a copy, so you can carry out your own further bespoke analysis.

If your fleet isn't tracked, that's fine - we can arrange a trial with one of the UK's leading telematics suppliers on your behalf.

Don't go in alone, we have a range of options to suit your business size and requirements.

Speak to us today at [ProjectTelematics.co.uk](https://ProjectTelematics.co.uk) or email [enquiries@ProjectTelematics.co.uk](mailto:enquiries@ProjectTelematics.co.uk) for a free thirty minute consultation.
