

MULTI-PURPOSE CLEANER, DEODORIZER & DISINFECTANT

OUR MISSION

To create a healthier, safer world by taking the worry and toxins out of cleaning.

OUR INNOVATION

Force of Nature miniaturizes an industrial technology called electrolyzed water. Electricity converts tap water, plus a capsule of salt, water and vinegar, into two new ingredients:

1

HYPOCHLOROUS ACID

The disinfecting ingredient, the same substance the immune system produces to fight infection. Also used in wound healing and eye care products.

2

SODIUM HYDROXIDE

A detergent used in toothpaste, lotions & cleaners. Low concentration requiring no rinsing.

NO MORE TRADEOFFS

NO TOXIC CHEMICALS

No rinsing needed
No toxic fumes
or residues

100% ECO-FRIENDLY

Re-usable bottles
Recyclable capsules
Green Seal certified

MULTI-PURPOSE CLEANING & DEODORIZING

Cleans virtually
any surface
Bleach-strength

EPA REGISTERED

EPA Registered Disinfectant & Sanitizer as effective as bleach, certified for use in hospitals, schools & veterinary clinics.

Kills **99.9% of germs** including:

Pseudomonas aeruginosa
Salmonella enterica
Staphylococcus aureus
Trichophyton mentagrophytes
Listeria monocytogenes
MRSA
Norovirus
Influenza A virus

one system replaces

disinfectants, sanitizers,
deodorizers, glass and
multi-purpose cleaners

TOXIN-FREE CLEANING & DISINFECTING ON:

Glass	Composite
Sealed stone	Grout
Wood	PVC
Rubber	Chrome
Stainless steel	Enamel
Plastic	Vinyl
Porcelain	Tile
