Sustainable Cosmetic Product Development: Market, Regulation & Product Development

Instructor: Wen Schroeder, President, SEKI Cosmetics LLC

Course Summary: The consumer market has evolved over time along with the global green movement. Today's consumers are conscientious buyers who do not simply buy into a green image; they want to see proof that the manufacturers are engaged in business practices that would ensure a common, sustainable future for all, in both economic and ecological sense. In short, they demand reassurance and actual substantiation of sustainability. This course will provide an overview of this socio-economic trending and how it is shaping the behavior and practices of both consumers and manufacturers alike in cosmetic/personal care product development.

Wen's Biography: Wen Schroeder is the founder and president of SEKI Cosmetics. She is key expert for the ASEAN-EU Program for Regional Integration Support in cosmetic & pharmaceutical GMP and testing. Ms. Schroeder is scientific advisor to Taiwan External Trade Development Council and had served for the Personal Care Products Council. She is active in the Society of Cosmetic Chemists and the Regulatory Affairs Professional Society. With 20+ years of industrial experience, 30 US patents and numerous publications.

SCC News from Area II Director Yulia Park (yulia.park@amway.com)

- ◆ National Board Elections will start earlier this year. Ballots should be delivered electronically to all eligible voting members by July 25 and we will know the winners by Aug 15th
- ◆ MISCC Chapter Elections will be in October. *Please consider volunteering* to serve our chapter by running for one of our board positions. Nominations are needed by August 30th.
- ◆ Our chapter chair, Caryn Weiss, is running for Area II Director. There are currently four people running and this needs to be reduced to three before the ballot is put before the membership. We hope Caryn makes the cut!
