# Social Night at Founders Brewery

Our annual social night was held on the evening before the scientific symposium at the new Founders brewery located near downtown Grand Rapids . Attendees enjoyed a variety of craft beers on tap as well as brewery tours.

## University of Toledo Cosmetic Science Students Post Popular Videos

The Cosmetic Science and Formulation Design program at the University of Toledo (UT) College of Pharmacy and Pharmaceutical Sciences was approached by the social media group from UT's Office of University Communications, and they expressed their interest in filming our undergraduate Cosmetic Science and Formulation Design making makeup products in the laboratory. The video was posted on social media on May 2nd, 2016; in its first 24 hours online, the video reached more than 66,000 people on Facebook (not a typo) and was watched more than 11,000 times. The video is also available on YouTube.

Credit goes to Cosmetic Science and Formulation Design students, Tamare Sweeting, Taliyah Jones, Arushi Prakash, Gabriella Dabain, and Denisha Patel, as well as Cameron Norton, Vince Diguglielmo and intern Gina Todd, who filmed and edited the video.

## ***Spreading the Word about Careers in Cosmetic Science***

On June 27th three Amway members (Debbie Pinardo, Yulia Park and Jenny Lee) of the Michigan Society of Cosmetic Chemistry participated in the first University of Toledo Bachelors of Science in Pharmaceutical Sciences (BSPS) Summer Camp. The BSPS program is a growing program within the college with five majors to choose from. The purpose of the camp was to expose students with demonstrated knowledge in math and science to the experience of being a pharmacy and/or cosmetic science student and possible future career paths. Sixteen eager high school seniors attended the two day BSPS summer camp experience.

Yulia, Jenny and Debbie provided a presentation covering the Amway business, product development process and careers in the personal care industry. During lunch we were able to share our individual paths to our current careers in the personal care industry and answer questions. We also conducted a one hour lab experience where the students prepared a moisturizing gel and were able to test the product on their skin using a novameter and D-SQUAME® test strips.

This was a great opportunity for us as SCC members and Amway employees to share our experiences and the career possibilities in the personal care industry. The students were very enthusiastic and seemed genuinely interested in careers as a cosmetic scientist. It was especially impactful to have Jenny Lee with us since she is a recent graduate of the University of Toledo program!
