Gerald Wagenhofer, cert. ECH/MHA/THA | UBW Unternehmensberatung Wagenhofer GmbH
Vienna, June 2023

The European Heritage Academy

„THE EUROPEAN HERITAGE ACADEMY“ is an internationally certified continuing education initiative, which was commissioned by the Burghauptmannschaft Österreich (BHÖ) in cooperation with the Bundesdenkmalamt | Information and further education centre for the preservation of historical monuments in the Charterhouse Mauerbach. The BHÖ launched the EU project MODI-FY three years ago, in the course of which an internationally certified continuing education course was developed for all occupational groups working on the historic building, which is also based on practical experience. The Charterhouse Mauerbach as a further education platform for the preservation of monuments serves here as a seminar centre as well as training grounds for practical implementations. The regular operation of the EUROPEAN HERITAGE ACADEMY started with the first modules in December 2017.

Partner in this cooperation

Job Role Committee for Heritage Asset Management	Cooperation and Implementation partner
Represented by:	
Burghauptmannschaft Österreich	Bundesdenkmalamt Informations- und Weiterbildungszentrum Baudenkmalpflege - Kartause Mauerbach
Hofburg-Schweizerhof	Kartause Mauerbach, Kartäuserplatz 2
1010 Wien	3001 Mauerbach

Heritage Asset Management

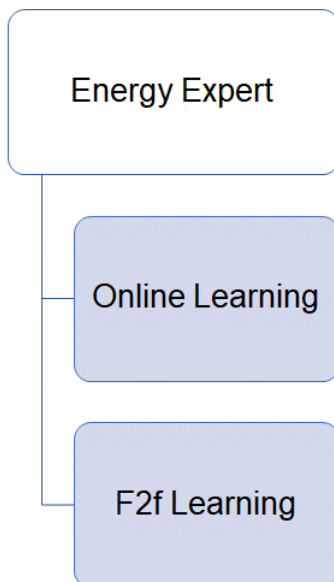

- Cultural heritage assets include objects that have an independent value due to their contribution to society, to knowledge and / or culture of a country
- These are usually physical assets, but some countries also use the term for intangible social and spiritual heritage
- In this case:
 - Historic buildings; monuments (equestrian, permanent and other monuments); conservation areas; archaeological sites, etc.
 - Protected / not protected (list of monuments)
 - Regardless of the current usage

Needs for this Curriculum

The major needs addressed in PRO-Heritage are

- to protect traditional competences and skills for built Cultural Heritage
- the need to involve adequately educated and trained professionals and craftsmen in conservation, maintenance and ongoing care
- the need to keep those professionals and craftsmen updated in regards to their competences and skills
- the need to certify those professionals and craftsmen in order to give them recognition of skills
- the need to keep these certificates up to date
