## ~~ABOUT US~~

Since 1974, the Bayard Cutting Arboretum Horticultural Society (BCAHS) has been promoting sound home gardening methods, preservation of the environment and an appreciation of Bayard Cutting Arboretum and our Long Island Community.

BCAHS offers numerous its members education programs, lectures, demonstrations and networking opportunities. Monthly meetings include a short business portion, followed by a presentation given by a guest speaker. Informative monthly newsletters are sent to members via email. Periodic field trips are arranged to visit gardens and other sites of interest. Hundreds of visitors come to the Arboretum for the Annual Plant Sale that features attractive and unusual perennials and specialty plants.

BCAHS members operate Granny's Attic located at the Arboretum's Lower Carriage House where gently-used household items are sold at a significant discount.

Profits generated by BCAHS activities are used to help support Bayard Cutting Arboretum's Westbrook Manor House.
