VICTOR

CERTIFICATIONS

Environment protection & working conditions – partner and certifications of VICTOR

For decades, VICTOR stands for sporting expertise and innovative, high-quality products. Environmental compatibility and sustainability are in the focus as well as questions about skin compatibility, life cycle assessment and recyclability of materials and end products.

VICTOR therefore works together with the Hansecontrol company on sensitive, relevant product groups. Suppliers are put through their paces and must either comply with the BSCI standard or be supervised by SGS, TÜV Rheinland or other testing institutes that vary regionally.

Oeko-Tex® Standard 100 is a worldwide equal test and certification system for textile.

Product testing for purity, contaminants and safety

WE SAVE PLASTIC IN EVERYDAY LIFE:

Plastic bottles are no longer used in our office. But we prefer to put them into our shirts!

WE DROP THE COVERS

In order to avoid plastic waste, we have decided to no longer include a cover with every racket as standard. Instead, we offer you the right case for every need in our assortment.

100% RECYCLED

Since 2020, we have been investing in the conversion of Teamline from conventional material to recycled material.

CONVERSION TO HYBRID/ELECTRIC FLEET

We are proud of our first hybrid car. In the future, every car will be replaced by an electric or hybrid vehicle.

NO FOILS IN PRINT

For print products, we use certified paper and do not refine them with films. We also try to keep the print runs low.

SAVING ENERGY

Our new European Head Office building complies with the KfW standard. This means we use as little energy as possible in the office.

PAPER FREE OFFICE

In planning from 2023.

Logistics and distribution location for VICTOR and FZ FORZA in Europe*. Horst, Germany

FZ CLUB 2022/2023

FZ FORZA[®]

INNOVATED IN DENMARK 

ABOUT FZ FORZA

Mission: Design leads innovation and we design to create products with impact for everyone.

Vision: To create badminton and padel products for everyone and being the preferred brand by all kind of players from beginners to professionals, without compromising on quality and design.

Profile: Badminton and padel products of all kind.

Concept: To create and offer a wide range of products that match everyone's needs in quality, design and price.

Price Positioning: All price segments.

We are proud of being FZ FORZA.

We are proud of our Danish nationality and being "Innovated in Denmark". Our collections are always developed and designed after a clear concept, which creates a unique link between the different product groups without losing our identity.

We are proud of taking responsibility for the environment with the use of recycled materials for both products and packaging.

Finally, we are always proud everytime a player chooses our products!

Creating FZ FORZA, was based on the idea of a Danish quality product at a fair price as an alternative to the Asian brands.

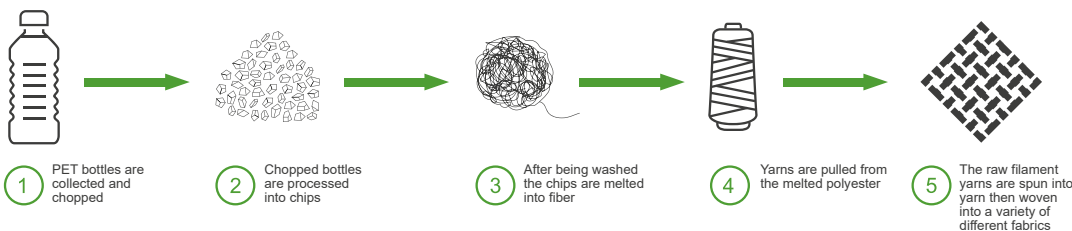

The idea turned out to be good, and already after a few years in 1993 FZ FORZA was the second biggest badminton brand in Denmark

Since then the journey has been a success and today it's not only in Denmark an alternative to the Asian brands, but world wide a brand "Innovated in Denmark" and almost the only alternative to Asian brands.

RECYCLING

Play badminton with a green mindset. Most of the new FZ FORZA collection is made of polyester created from recycled plastic bottles. With this step we want to take our part of the responsibility for our planet.

So in this new collection all club shirts, shorts/skirts, pro player shirts, collab collection and most of the jackets and pants are made of 100% recycled polyester. We hope you will choose your next FZ FORZA product with this in mind, and help us help the planet. The process of making this recycled polyester is described below.

On average 1 shirt takes around 25 bottles and 1 pair of shorts or a skirt takes around 15 bottles, meaning that if you have both you basically go on court wearing 40 plastic bottles!

PACKAGING

From 2021 FZ FORZA started looking at packaging etc, to make sure we optimize our packaging to become more environmentally friendly where possible.

As you can see reading this workbook we have printed on recycled paper as well.

All styles that are made of recycled polyester will be marked in the catalogue with this icon:

The product itself will have an extra tag in front of the normal one.

FZ TECHNOLOGIES

ANTISTATIC

When moving around you create static electricity, but our fabrics prevent the garments from sticking to your body. To avoid your garments from being static, please do not tumble dry.

ANTI-PILLING

Our garments are made in fabrics either constructed to avoid anti-pilling or fabrics that are given an anti-pilling treatment. Even after washing several times, the surface will still look good.

DRYFORZE

DryForze keeps you comfortable during the game! With the unique DryForze treatment, we ensure maximum comfort. DryForze makes the fabric perspiration transporting, quick drying and super pleasant to wear, and the DryForze capabilities will stay with your clothes for much longer than similar technologies. Fabric treated with DryForze has high breathability and a cool wearing comfort.

STRETCHABLE

Most fabric is stretchable either by knitting or due to added elastane. We make sure that the style has just the right stretch in order for the style to both fit the body and give comfort.

ANTI SHRINK

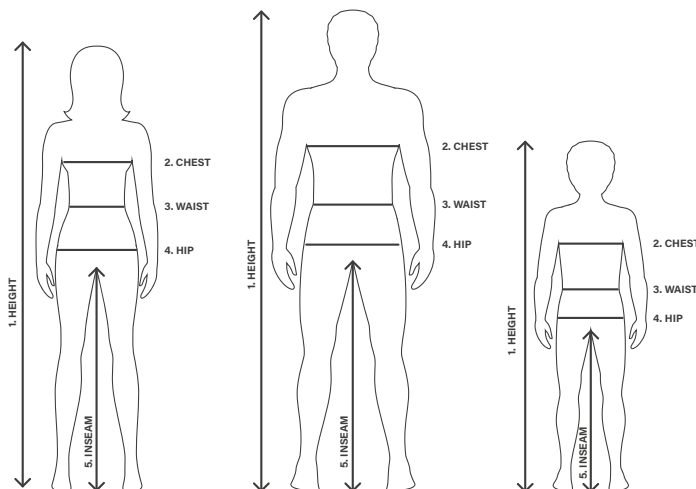

All garments have been preshrunk to avoid size changing. Follow the care label and your FZ FORZA clothes should be your favorite badminton clothing for years.

MEASUREMENT GUIDE

How to choose the right size?

If your body measurements for chest and waist do not correspond with the same size, then choose the size which is closest to your chest measurement. If you are in between to sizes, then choose the smallest size for a tight fit or the bigger size for a loose fit.

WOMEN:

SIZE	2XS	XS	S	M	L	XL	2XL
Chest	78	82	86	90	94	100	106
Waist	62	66	70	74	77	80	83

2019 Runner up European team Championships

FZ FORZA HYBRID 5000

FZ302933

A perfect choice for players playing frequently. The combination of cork base, nylon skirt and feathers gives this shuttle a really good flight and high durability. All this at a very attractive price.

FZ FORZA VIP

FZ301554

The VIP is the top shuttle of FZ FORZA. A first class tournament shuttle approved by BWF and used by several national federations around Europe. Perfect flight and good durability makes this shuttle the best choice for your game.

FZ FORZA S-6000

FZ301555

A tournament shuttle offering excellent flight and excellent durability. A good choice for players playing frequently with extra focus on shuttle quality.

FZ FORZA S-5000

FZ301556

Especially suitable for players playing frequently requiring an extra durable shuttle. A really good and durable practice shuttle for training groups who require good durability and flight.
