Benefits of Renovation:

Reconfiguration of the interior space places all rooms on one level, allows flexibility of usage and storage, and improves handicap accessibility.

Gallery space enlarged from 320 sq. ft. to 400 sq. ft. allows us to reinvigorate gallery shows for artists at all points along their artistic journeys.

Art Studio enlarged from 250 sq. ft. to 400 sq. ft. allows more space to experiment with different art mediums. It also allows us to “dual purpose” the studio, as needed, to host larger exhibitions, lectures, artist demonstrations, and special events on site.

Installation of heat pump/AC unit will improve the interior environment of the building and increase energy efficiency.

All entry/egress points configured to improve security, functionality, accessibility, and ease of maintenance.

Doors, door hardware and windows upgraded to improve energy efficiency and accessibility.

Reconfigured and upgraded electrical outlets/switches/charging units will better support all art programming, classes, gallery shows, lectures, special events, etc.

Lighting upgraded to improve functionality and energy efficiency.
