## Experience

### Current Projects

**Pacific Gas & Electric (PG&E).** Providing solution architecture and integration subject matter expertise in support of the AMI Gas endpoint replacement project. Developed AMI Gas endpoint replacement and solution implementation cost model including all aspects of the IT Program Staffing, Architecture, and Integration components.

**Veolia (Previously SUEZ).** Delivering AMR / AMI Transition to Cloud Services including program management, vendor management, integration, testing, training and transitional services supporting 22 independent operational units.

**Frankfort Plant Board (FPB).** Providing Executive account management and program implementation services to the FPB AMI Program.

### Other Relevant Experience

**SUEZ Water.** Delivered enterprise asset management implementation services including project management, business process definition, solutions specifications, integration, test, and operations stabilization to the Mid-Atlantic operating units.

**San Antonio Water System (SAWS).** Developed the enterprise architecture and integration plan in support of AMI procurement and program implementation.

**SUEZ Water.** Delivered mobile workforce management implementation services including project management, business process definition and standardization, solutions specifications, integration, testing, and operations stabilization to all of their regulated operating units.

**Frankfort Plant Board.** Delivered the enterprise architecture and integration plan and business case benefit model in support of AMI procurement efforts.

**Southern Maryland Electric Coop (SMECO).** Led the procurement of the Enterprise Asset Management solution and facilitated operational implementation of the solution.

**SaskPower / SaskEnergy.** Led the enterprise architecture and integration business case planning, procurement, and implementation in support of the Saskatchewan Provincial AMI Program.

**Southern Maryland Electric Coop (SMECO).** Led the procurement to select the MDMS and systems integration vendors in support of the overall AMI program implementation.

**Cobb EMC.** Led the technical assessment, evaluation and recommendation processes to secure an MDMS solution in support of the overall AMI initiative.

**PowerCents DC – SMPPI Program.** Led the development of solution architecture and design of integrations in support of this collaborative demand response initiative.

### Additional Past Engagements

- Austin Energy
- Colorado Springs Utilities
- Centerpoint Energy
- Jacksonville Energy Authority
- Puget Sound Energy
