

Academy Manager's Report 2022

The academy has been supported well this year by the youth. They have gelled well as a group which will help the U25 and U31 going forward.

U25 failed at the first hurdle this year with some lesson learned this year to try and improve the team performance. U31 did well and got to Leamington but met a very strong Kent side but they did Leicestershire proud.

We have now chosen the new academy kit and will distribute.

Academy funding will be done by asking a donation at practice matches an introduction to match fees as well as a small charge for county open competition. Any of the older group that want to keep the kit will be charged the cost of the kit. We currently have enough kit for both Amy Rose and White Rose squad. The money generated will go on to buy the rest of the players in the academy who do not yet have the kit.
