

# Long Ear Rescue, Inc.

<https://longearrescue.com/>

## Mission Statement

Advocating love and respect for long ears through education, gingerly (GingerLee) care, and rescue. (864) 414-2469 [longearrescue@yahoo.com](mailto:longearrescue@yahoo.com)

# Sunshine Canyon Dog Rescue

<https://www.facebook.com/sunshinecanyondogrescue/>

[sunshinecanyondr@gmail.com](mailto:sunshinecanyondr@gmail.com)

*Their mission is to save dogs from high kill, over populated shelters and place them in loving, committed homes.  
They are a foster based rescue located in Colorado with amazing volunteers all over the USA.*

# Kangaroo Sanctuary

<https://kangaroosanctuary.com/>

“Animals Come First”

Their Mission is Animals Come First. They rescue, rehabilitate and release orphaned baby kangaroos back into the wild. Those who can't be released into the wild are released into the wilds of their 188 acre Sanctuary.

## Their Story

Chris 'Brolga' Barns, first established the Baby Kangaroo Rescue Center in Alice Springs in 2005. He then then built The Kangaroo Sanctuary Alice Springs, a 188 acre wildlife sanctuary for his rescued orphaned baby kangaroos and adult kangaroos, which he opened in 2011. Their mission is to educate and encourage people to rescue and care for kangaroos and other wildlife and animals. Their motto is Animals Come First.

# Little Longears Miniature Donkey Rescue

<https://www.littlelongears.org/>   [info@littlelongears.org](mailto:info@littlelongears.org)

They are a Maryland registered 501(c)3 non-profit charity. **Mission Statement:** dedicated to the rescue, rehabilitation and safe sanctuary of abused, neglected or otherwise unwanted donkeys. They also provide a safe haven for owners to surrender their donkeys in the event they are no longer able to care for them.

After veterinary, farrier, psychological and training needs are met, their goal is to place adoptable donkeys into permanent, loving homes as appropriate, or to provide permanent sanctuary as needed.

They started in November 2013 rescuing only miniature donkeys, but the rescue has grown in every way, including the size of donkeys that they have helped. Though they do try to work primarily with miniatures, they always seem to have some standard donkeys there, and most recently, they took in a few mammoth donkeys (the draft horse of donkeys!). Their donkeys come from all sorts of places. Many are surrendered to them by owners (owner surrender) who are either unable or unwilling to care for them any longer. Many more come from auctions. They also work with other local animal control, and SPCA agencies to take in donkeys that they need assistance with.

**Mission Statement:** Little Longears is dedicated to the rescue, rehabilitation and safe sanctuary of abused, neglected or otherwise unwanted donkeys. They also provide a safe haven for owners to surrender their donkeys in the event they are no longer able to care for them.

# SFT ANIMAL SANCTUARY

<https://www.sftmorocco.org/>

**SFT was the childhood dream of founder, Salima Kadaoui (Sally). Growing up in Tangier, Sally saw the suffering of the stray population and dreamt of taking them home to give them the love and care they so desperately needed. *SFT UK was created in 2013 to help the animals of Tangier. It's a non-profit organization set up to provide sanctuary for the animals of Tangier. SFT Morocco was later created in 2015 to support this vital work. They offer a forever loving home to all the animals that come into their care.*** [\*\*info@sftmorocco.org\*\*](mailto:info@sftmorocco.org)
