Lots of Moose and Bear

Come to where they make Moose, build moose, shoot moose and have the high moose hunter success rate in the world, Newfoundland, Canada. The way I figure to have so many moose they must be reproducing them here locally. I know that is not how the biologists explain it exactly but the outcome is the same, a lot of moose. Although the moose are too big for the beautiful Black Bears that are the second most populated animal on this island, they can sneak off with a calf now and then. The most noticeable part about these Big Black bears is the high luster and thick nap of their coat, that make a fabulous rug. Much of this is due to the islands rain fall and moist air.

Remember this is a COMBO Hunt. 1 Bull Moose and 1 Black Bear.

A large island North West of the state of Maine. From the US there is land travel from the United states except for a small span that a ferry takes you and your vehicle across so that you can fulfill your dream of taking a moose. The Gander International Airport is accessible from any city in North America. Upon your arrival at Gander, we will meet you and take you directly to our lodge, a drive of less than an hour. Distance to Gander Newfoundland from: - Boston 900 miles - New York 1150 miles - Chicago 1750 miles

In a Canadian province that has more Moose than people. You will like those odd because they are working for you, and there is no place in the world where you can make that statement except for here.

The success rate runs between 95% and 99% with hunters using our outfitter, his guided service and his many, many years of putting moose in front of his hunters.

If you have been putting in for a moose license down in the lower 48 states and of course you haven't drawn, and can't even smell moose you are 1 of hundreds of that and that have locked on that and not figured out the success is higher and the cost is lower, plus Newfoundland Canadian moose are bigger than the Shiras moose of the lower 48 states.

The Newfoundland moose is the next size bigger as we grow the moose size table. Shiras, Newfoundland, Southern Canada, Central Canada, followed by the northern tier of Canada, BC, Alberta then going into the Yukon. Of course, after that it is the Alaskan Moose with the \$14000 to \$ 18000 hunt costs, and you don't even get a license in that sum for the hunt.

As they get bigger so do the price tags for the most part. moose are not like shooting a whitetail buck, quartering him and pack him out with you buddies.

These animal can weigh from 600 pounds to twice that amount. They are found in the most roadless place they can find. You can bet your first shot that they will either be in knee deep bog or all the way to standing in 8 foot of water.

While you are hunting you will not only see your share of moose but also black bear before your kill and tagging out early is a good time to shoot a prime coated Black Bear, and even Mountain Caribou

Lodging is on us at our lodge nestled in one of the most productive hunting areas in Newfoundland. It is complete with hot and cold running water, electricity, fireplaces and lounge meeting area. It has three bedrooms, three bathrooms, kitchen- dining and living rooms downstairs. The sleeping loft offers dormitory conditions and is divided into two private areas.

Moose are big animals along with the best eating, so to insure your game is properly prepared, we have butchering, chilling and freezing within an hour of our lodge. There are no guarantees in the outfitting business. However, we will do everything in our power to provide you with the best hunting trip imaginable. Our high success rate demonstrates our commitment to you.

As non-residents are required to have a guide for hunting in our province, we provide experienced, knowledgeable guides who are thoroughly familiar with all species and their habitats.

Upon receiving your deposit for the hunt, we will send you a gear list. For the most part we seldom get snow but rain is common. We don't do much walking but when we do the brush can be very wet. God rain Pants and a rain coat is a must. The temperatures are usually mild with nights in the 30's and days in the 50's with rain possible at any time.

We will pick you up at the Gander airport for a small fee and take you to the lodge so you don't need to rent a car.

We recommend the minimal rifle to be a 30.06 with a 180 grain bullet or larger. Sight in dead on at 200 yards and you should be ok.

The hunt can be taken in October or November 2019 or 2010 once booked.
