

JUDY HARRIS

Senior Experience Builder

PROFILE

Leading the Pack with a bachelor's degree in Communication from the University of Houston – Clear Lake and 30+ Years of web development and design experience. Developed exemplary leadership skills while serving 12 Years in the United States Air Force, as the NCOIC of the Base Communication Center, Senior Data Analyst for the Small Computer Support Center, Leader of the Software and Hardware Deployment team, and Full Stack Web Developer.

Spent the next 14 years working at NASA with duties as Business Analyst, Government Liaison, and a Senior Front-end Web Developer who specialized in User Experience, User Interface, Usability, and Detailed Graphic Design. Responsible for ensuring all websites were responsive and 508 Compliant.

Noted for high initiative, ability to quickly adapt to new technologies, always exceeding expectations, and extreme enthusiasm towards providing outstanding service. Managed several teams, products, projects, and deliverable applications.

An advanced designer with an eye for details who has the skills to code the designs. This combination is a huge asset for any project. Excels in fostering teamwork and business documentation. A self-starter with an "out of the box" perspective who makes things happen.

HIGHLIGHTS

- Led collaboration effort to create and deploy vue3 and react SPAs using Routing, Tailwind and GIT
- Deep understanding of design patterns, layouts, and frameworks for compelling user experiences
- Exceptional ability to research, estimate and create evaluations for engagement opportunities
- Proven record solving complex design experiences for large-scale mobile and web projects
- Involved with creating high-level user journeys, process flows and detailed wireframes
- Hand chosen for leadership roles because of a keen ability to visualize the end product
- Expert with the entire Adobe Suite, all Microsoft Products, and a Vast Array of Frameworks
- Responsible for the re-design and development of a client's signature software platform
- Lead resource as customer liaison for creating, envisioning, and capturing product design
- Quickly picks up new technologies becoming the resident expert with the ability to teach others
- Led several efforts in SAP, Tableau, Power BI, Highcharts and other Data Visualization tools
- Resident WordPress expert in child themes, advanced custom fields, multimedia and more
- Unique ability to instantly belong to any team and a skill to keep projects moving forward
- Highly proficient with Final cut pro & QuickTime Video multichannel editing and publishing
