# RESOURCEGUIDE

The Southwest Georgia Regional Commission (RC) was awarded funds through the Economic Development Administration (EDA) from the Coronavirus Aid Relief, and Economic Security (CARES) Act (2020) to conduct planning activities that address and respond to the COVID-19 pandemic.

This resource guide is one way the RC is responding to the effects of the pandemic. Many local governments and respective agencies had a difficult time locating resources for their communities. Having a centralized resource guide will be beneficial for all local governments and their agencies as the region responds to the COVID-19 pandemic and creates communities that will be resilient for future economic crises.

It is the aim of the Southwest Regional Commission to assist in making our region as resilient to natural, cultural, and unintended economic crises. As a supplement to this resource guide are resources for small business assistance.
