WINDOW Graphics

An Ideal Product For Your School!

Harcourt Window Graphics are an ideal product for one-way visibility. This adhesive backed material has a perforated dot pattern that allows print surface for graphic readability outside with minimal restrictions on light transmission and window viewing from the inside. This makes it the perfect choice for school entrances.

Classic Impression

- *Photographic-Quality Print* – Logos and designs are digitally printed with photographic quality; fine details, shading, and 3D images can be achieved; 150 standard colors options available

- *Resilient* – High-twist, heat-set nylon (32-ounces per square yard) resists crushing to better trap dirt and extend the useful life of the mat •

Commercially launderable when backed with nitrile rubber

- *Choose from 150 standard colors*
- *Available on choice of SBR (48 mil), nitrile rubber (52 mil, 65 mil, 90 mil), or vinyl (70 mil) with multiple backing options to ensure the mat stays in place on your floor.*

Safety & Security Film For Schools

www.WindowGraphicsUSA.com

- 6 Mil
- Cost Effective
- Applied on Interior Side
- Tear Resistant - Does not prevent glass from breaking, but helps hold broken glass fragments together.
- Impact Protection Attachment Systems - Bonds the filmed window to the frame, offering the highest level of protection when combined with safety film.
- Holds window in place during tornado.

Schools continue to choose this safety film solution because of the following:

- More cost effective than replacing all of the windows and doors with laminated glass
- Quick implementation and easy application over the existing glazing

While potential intruders will not be fully stopped from entering a school building, Safety and Security Film will provide the most important component - **TIME - by slowing the intruder down.**
