

POWERKENPO

FAMILY FRIENDLY KARATE

Our karate program is great for kids! We work kicks, and punches and blocks, and movement skills. It all leads to strength, and endurance, and flexibility, and better motor skills to help kids excel at other activities.

Karate is the BEST activity for Self-defense and Anti-Bully skills, so your child will be ready if they run into the bully.

What really makes us great is that we teach LEADERSHIP in every class. Leadership is important – if your child is on a team or in a class or group, and they get a chance to be a leader and aren't ready, some other kid gets to do it. That kid might get extra playing time, extra coaching and mentoring, and your child will have to figure out how to catch up. We don't want your child to miss the bus because they weren't ready when they got a chance to be a leader and stand out.

Karate and Martial Arts training has so much to offer children – and out karate classes can take your child all the way to Black Belt – and beyond.

Look at the boy in the upper left of the picture on the other side. That's Zack. He started when he was 4 in our offsite preschool classes. Today, he's a Black Belt instructor and he's about to graduate from Texas A&M University.

You can start here and now with one class a week at Kiddie Academy. It's easy, it's convenient, and it's safe.

If Martial Arts resonates with your child, you can expand your program to include classes at our studio on Preston Road in Dallas, or Old Denton Road in Carrollton.

Just go to www.KiddieKarate.com

New members pay \$49 to get started. That gets you a karate uniform, karate t-shirt, and a string backpack.

Your first two weeks are free.

After that, tuition is just \$59 every 14 days for one class each week at Kiddie Academy! You can add studio classes whenever you want.
