SKIDS CONTROL®

Stamp is specialised in outdoor products. Since 1994 we have had a long and successful history with different licensors and have created the best designs, All covering some very successful characters and brands.

Stamps service to the Industry is second to none, we believe in improving the lives of children and seeing them laugh. We have a stringent quality control program and all our products substantially apply to the essential safety standards.
At Stamp we never compromise on quality.

From the embryonic stages of design through to full production we take great care to produce only the very best. Our service to the Industry these past 30 years has been rewarded with the constant support of our customers, their loyalty, and of course the satisfaction of the consumers.

Disney
PRINCESS

The logo features the word "Disney" in a white, cursive font above the word "PRINCESS" in a white, serif font. Both are set against a magenta, crown-shaped background with a white outline. A large, clear diamond is positioned at the top center of the crown, and several smaller diamonds are arranged in a row at the bottom.
