by **Eric** Mellerio

Eric Mellerio

Né à Paris en 1959, Eric Mellerio est avant tout un Designer dont la créativité est sans limites. Il débute sa carrière au sein de l'entreprise familiale - Mellerio dits Meller, rue de la Paix à Paris - en créant avec sa famille des pièces prestigieuses et de grande renommée (Epées d'Académiciens, Coupe de Roland Garros, Cravache d'Or, Ballon d'Or...) ainsi que de somptueuses collections de bijoux.

Après 15 ans au sein de la maison familiale, Eric Mellerio quittera la rue de la Paix, pour créer Most Group ou il exercera ses propres talents dans la réalisation de pièces exceptionnelles, principalement dédiées au monde du sport (FIA, Porsche, Formula One, PoloOne...). Mais en 2015, Eric Mellerio décide de quitter Paris pour installer une nouvelle structure bénéficiant de vastes ateliers dans l'ouest Parisien - MiO International - afin de laisser libre cours à sa créativité en réalisant des pièces de design animalières de grandes tailles.

Eric Mellerio travaille différentes matières comme le plâtre, la résine, les pigments colorés ou la pulvérisation d'Argent ou d'Or. Il sera l'un des premiers à utiliser le flockage pour les finitions de pièces colorées et uniques. Sa clientèle devient très vite Internationale et il collabore en éditions limitées pour les plus grands décorateurs dans le monde.

En 2019, une nouvelle orientation artistique est prise en travaillant des matériaux innovants - Inox, Aluminium, Acier - et en utilisant les potentialités exceptionnelles du Laser.

Présent aujourd'hui dans un nombre grandissant de Galeries d'Art, en France ou à l'International, les Œuvres d'Eric Mellerio, pièces uniques ou en séries très limitées, sont le reflet d'une imagination en perpétuel renouvellement.

Born in Paris in 1959, Eric Mellerio is above all a Designer whose creativity is limitless. He started his career in the family business - Mellerio dits Meller, rue de la Paix, Paris - where he created with his family, prestigious and world famous items (Academicians sword, Roland Garros Cup, Golden riding whip, Golden Ball trophy...), as well as sumptuous jewelry collections.

After 15 years in the family business, Eric Mellerio leaves rue de la Paix to set up Most Group where his own talent shines through his creation of exceptional items, made mainly dedicated to the Sports world (F.I.A, Porsche, Formula One, Polo one ...). In 2015 however, Eric Mellerio decides to leave Paris to set up a new structure with spacious workshops in west of Paris - MiO International - to give free rein to his creativity by making large animal design projects.

Eric Mellerio likes to work with various materials, such as plaster, resin, colour pigments or gold and silver spray. He is the first person to use flocking on colorful and unique pieces. His customers fast becomes international and he works in partnership on limited editions for the greatest decorators in the world.

In 2019, a new artistic direction is taken by working on innovative materials - stainless steel, aluminium, steel - and explores the wondrous potential of laser.

Today present in art galleries in France and abroad, the works of Eric Mellerio, unique or in very limited editions, reflect an imagination in constant state of regeneration.

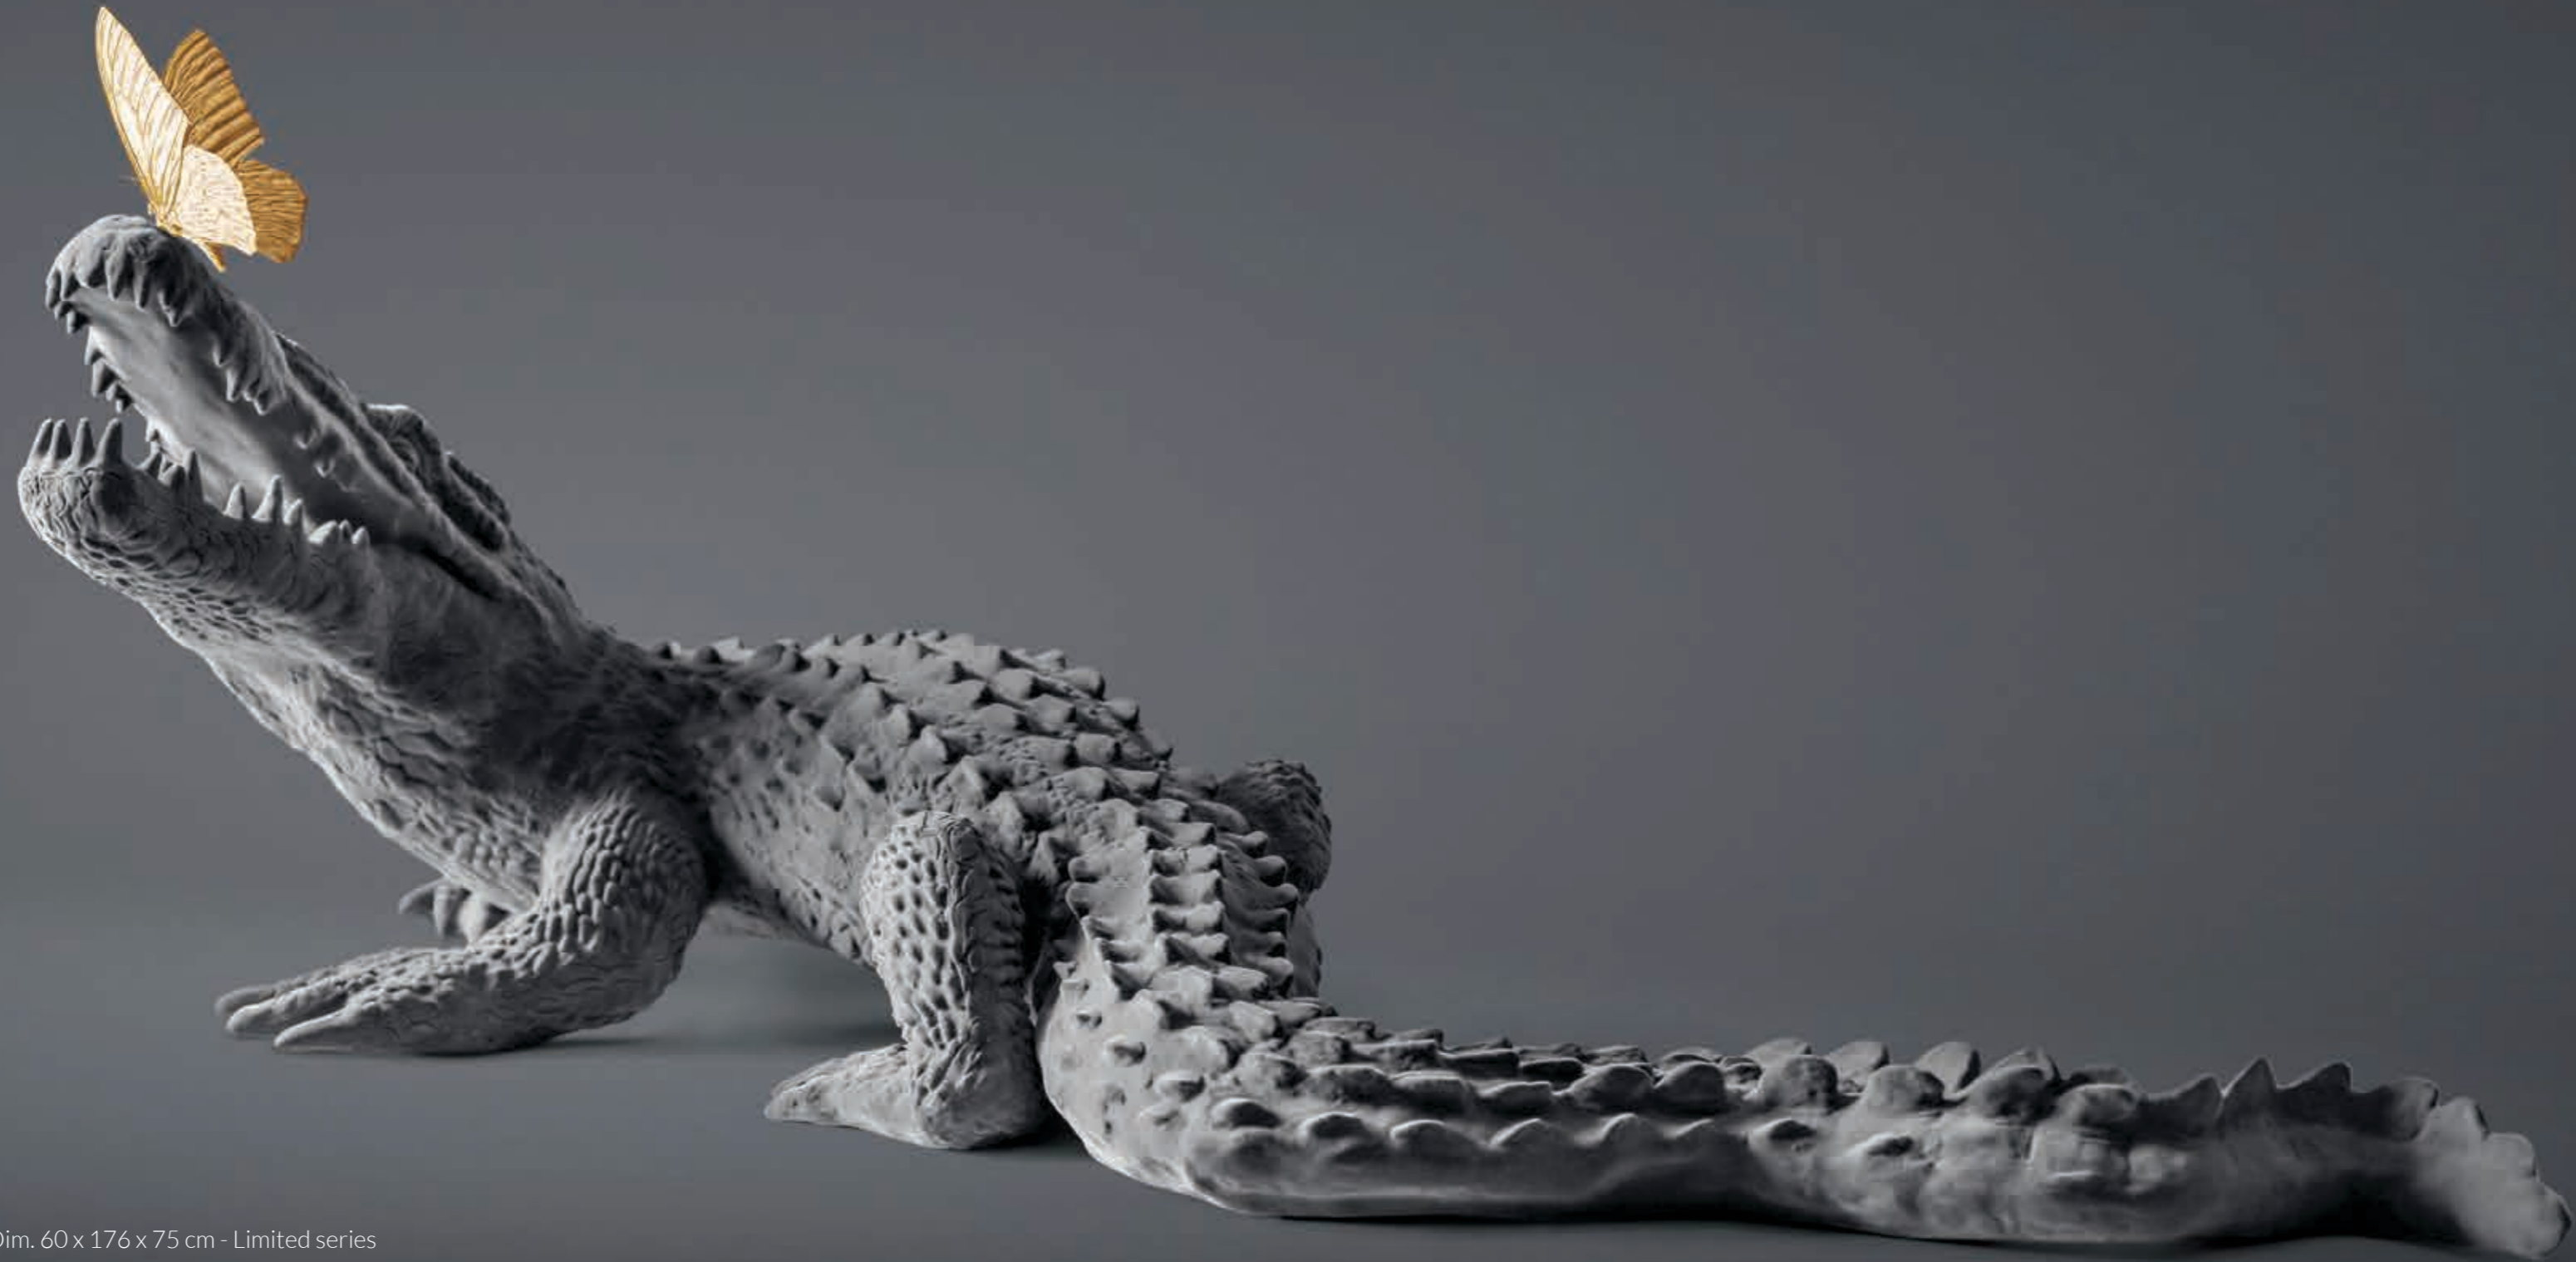

“La seule morale possible d’un bout à l’autre de l’existence de l’homme est l’Art. A travers lui il peut espérer approcher le bonheur.”

Yves Saint Laurent
