

1) Is Liquid BioCell Sport NSF Certified for Sport®? Does it comply with USADA regulations? Can it be used by professional and college athletes?

Yes. Liquid BioCell Sport is NSF Certified for Sport®. NSF International is the only third-party testing and certification organization to meet the stringent requirements of USADA's "Supplement 411" initiative. Additionally, our manufacturing facility is not only cGMP compliant, OTC-drug licensed by the State of California Food and Drug Branch, but it is also licensed by the State of California for supplement manufacturing. Furthermore, our facility has been NSF Certified for Sport®, which certifies that the manufacturing process and facility have been cleared of over 150 banned substances. NSF's Certified for Sport® program is designed to minimize the risk that a dietary supplement for sports nutrition contains banned substances, and is officially recognized by the NFL, NFLPA, MLB, MLBPA, PGA, LPGA, NCAA, and CCES.

2) How does this formulation differ from Liquid BioCell Life and/or Skin?

- Liquid BioCell Life is specially formulated for the person interested in healthy aging with benefits for joint, skin, cardiovascular health, and cellular support. It combines Liquid BioCell with resveratrol and 14 antioxidant phytonutrient fruits.
- Liquid BioCell Skin is specially formulated for the person who is most interested in youthful-looking skin. It combines Liquid BioCell with the added benefits of highly-effective ingredients targeted for skin, like ceramides, vitamin C, pomegranate, bamboo, green tea, and grapeseed extracts, and 14 antioxidant phytonutrient fruits. Liquid BioCell Skin allows you to expand to a new target market, including a younger audience and skin care professionals.
- Liquid BioCell Sport is specially formulated for the person interested in enhancing athletic performance. It combines Liquid BioCell with clinically-selected, NSF-certified performance-enhancing factors, like BCAAs, L-carnitine, rhodiola and astragalus extracts, and 9 potent antioxidants. Liquid BioCell Sport also allows you to expand to a new target market, including professional athletes, as well as any fitness-oriented audience.

All three products contain the same amount of Liquid BioCell, which is a clinically researched, multi-patented nutraceutical ingredient that helps the body maintain healthy connective tissues, flexible joints and youthful looking skin.

3) Can I use Liquid BioCell Sport in place of Liquid BioCell Life and still get the benefits?

Liquid BioCell Life and Liquid BioCell Sport both contain the same amount of Liquid BioCell, which is a clinically researched, multi-patented nutraceutical ingredient that helps the body maintain healthy connective tissues, flexible joints and youthful looking skin. Liquid BioCell Sport will offer additional benefits for athletic performance.

4) If I have joint concerns, what is the best formula to take? Life or Sport?

Liquid BioCell Sport is specially formulated for the person who is most interested in improving their athletic performance. It combines Liquid BioCell with carefully-selected, NSF-Certified for Sport® performance-enhancing ingredients, like BCAAs (branched-chain amino acids), L-carnitine, rhodiola and astragalus extracts, and 9 potent antioxidants. Liquid BioCell Life is specially formulated for the person interested in healthy aging with benefits for joints and skin, cardiovascular health, and cellular support.

5) Does Liquid BioCell Sport contain more or less Liquid BioCell than Life or Skin?

Liquid BioCell Skin, Sport, and Life all contain the same amount of Liquid BioCell.

6) Does Liquid BioCell Sport have the same joint health benefits as Liquid BioCell Life or Skin?

Yes. Liquid BioCell Sport, Skin, and Life all contain Liquid BioCell, which is a clinically researched, multi-patented nutraceutical ingredient that helps the body maintain healthy connective tissues, flexible joints and youthful looking skin. Thus, all three formulations contain the same benefits of Liquid BioCell. It is each product's unique additional ingredients within the formulations where additional benefits are experienced.

7) Does Liquid BioCell Sport replace any of my other athletic supplements for joints, recovery, multi-vitamins, protein, etc?

Liquid BioCell Sport is not designed to replace your multi-vitamin or any other athletic supplements. Although it contains naturally-occurring vitamins, it does not contain the USDA recommended dosage that constitutes a product as a 'multi-vitamin'. The exclusive formula combines multi-patented, award-winning Liquid BioCell, that is clinically shown to promote healthy, flexible joints, tendons, ligaments, and muscles, with carefully-selected, NSF-Certified for Sport® performance-enhancing ingredients, like BCAAs (branched-chain amino acids), L-carnitine, rhodiola and astragalus extracts, and 9 potent antioxidants. Learn more about the formula at LiquidBioCellSport.com.

8) Will Liquid BioCell Sport help my recovery time?

Liquid BioCell, BCAAs (branched chain amino acids), L-carnitine, and 9 potent antioxidants support recovery time.

9) Can Liquid BioCell Sport be used as a pre and/or post-workout supplement?

The recommended daily dose is 2 ounces of Liquid BioCell Sport every morning, and 2 ounces every evening. One of those doses can be taken either pre or post-workout. Use consistently, for two to three months to experience the product's full benefits and optimal results. Individual results may vary.

10) Does Liquid BioCell Sport contain any protein?

Liquid BioCell Sport contains BCAAs, (branched-chain amino acids), (L-leucine, L-valine, L-isoleucine) to help protect, repair, and rebuild muscle. The formula itself is not a protein supplement.

11) How does Liquid BioCell Sport help my athletic performance? What supporting documentation is there to substantiate this?

Healthy, flexible joints, tendons, ligaments, and muscles are key to optimum performance; however, with repetitive physical activity, common strains can occur. What you could be experiencing is the progressive degeneration of connective tissue where collagen, hyaluronic acid, and chondroitin sulfate are essential. Unlike anything else, Liquid BioCell promotes healthy connective tissue by allowing you to replenish these important substances orally in a patented, highly absorbable form, and it's clinically shown to work! Its Bio-Optimized manufacturing process produces an ideal molecular weight that your body can effectively absorb, and it mirrors the joint's natural composition so the body readily accepts it.

Liquid BioCell has been awarded 7 US and international patents, has received multiple industry awards including "Best Bone and Joint Health Ingredient", "Most Innovative Dietary Ingredient", and it's been featured on NBC, Good Morning America, and Fox News. Liquid BioCell has been the subject of multiple double-blind clinical trials and published in peer reviewed journals. Liquid BioCell Sport contains Liquid BioCell with the additional benefits of clinically-selected, NSF-Certified for Sport® performance-enhancing factors like BCAAs, L-carnitine, rhodiola and astragalus extracts, and 9 potent antioxidants.

12) Do any professional athletes support/use/endorse Liquid BioCell Sport?

Yes. Many professional athletes currently use and share our Liquid BioCell products.

13) Is Liquid BioCell Sport recommended by doctors and orthopedic specialists?

Yes. Many orthopedic specialists, physical therapists, and medical professionals currently use and share our Liquid BioCell products.

14) Is Liquid BioCell Sport recommended for seniors or non-athletes?

Liquid BioCell Sport is specially formulated to enhance athletic performance. It fuels physical and mental performance, promotes joint and muscle fitness, and boosts recovery in one formula. The market includes professional athletes, as well as any adult sports or fitness-oriented audience seeking these specific benefits.

15) How much Liquid BioCell Sport should I take?

We recommend taking two (2) ounces of Liquid BioCell Sport twice per day, consistently, for two to three months to experience the product's full benefits and optimal results. Individual results may vary.

16) Can I give Liquid BioCell Sport to my children who play sports?

Safety has not been tested for use by children. Although Liquid BioCell Sport contains natural ingredients, we strongly recommend that you consult your child's pediatrician when introducing any nutritional supplement into his or her diet.

17) Can I use Liquid BioCell Sport if I am pregnant?

Safety has not been tested for use by pregnant women. Although Liquid BioCell Sport contains natural ingredients, we strongly recommend that pregnant women consult with their physicians prior to taking any dietary supplement, including Liquid BioCell Sport.

18) Is Liquid BioCell Sport GMO/hormone/allergen/gluten-free?

Liquid BioCell Sport is derived from a GMO-, hormone-, and antibiotic-free source. This product does not contain peanuts, tree nuts, fish, milk, eggs, soy, wheat or gluten. Each and every batch of Liquid BioCell Sport is tested to meet food safety requirements. A copy of the product label is available on www.LiquidBioCellSport.com.

19) How many grams of sugar are in Liquid BioCell Sport? Is Liquid BioCell Sport safe for diabetics?

Liquid BioCell Sport contains only four grams of naturally-occurring sugar with each serving. Diabetics should have their blood sugar levels tested regularly. Anyone with a diagnosed health condition should consult their doctor prior to changing their diet or using any dietary supplements. This product is not intended to diagnose, treat, cure, or prevent any disease.

20) Is Liquid BioCell Sport kosher?

The fruits contained in Liquid BioCell Sport are kosher certified; however, Liquid BioCell is not kosher certified. Therefore, Liquid BioCell Sport is not considered kosher.

21) Is Liquid BioCell Sport organic?

Liquid BioCell Sport contains natural ingredients, however, it is not certified organic. While the utmost care is used to meet the highest safety standards in the manufacture of Liquid BioCell Sport, we cannot guarantee that all fruits in the blend are pesticide-free. For example, many of our suppliers are multi-generational farms, and the blend of fruits we use holds a Phytosanitary certificate, which is issued for products that pass health requirements pertaining to storage, pests, plant diseases, chemical treatments, and weeds. Furthermore, Liquid BioCell is derived from a GMO-, hormone-, and antibiotic-free source. Some of the other fruits are conventionally grown. Each and every batch of Liquid BioCell Sport is tested to meet food safety and dietary supplement requirements.

22) What is the shelf-life of Liquid BioCell Sport?

Liquid BioCell Sport has a shelf life of fifteen months in an unopened bottle; however, it should be refrigerated immediately after opening. Please handle your product with care. Unopened bottles should not be stored in an environment above room temperature. After opening, it is imperative that the product be refrigerated and consumed within one month.

23) Do I have to refrigerate Liquid BioCell Sport after opening?

After opening, it is imperative that the product be refrigerated and consumed within one month.

24) How much does Liquid BioCell Sport cost? How many Volume Points will I receive with each order?

The cost of Liquid BioCell Sport is \$75 for a two-pack, and \$150 for a case of 4 bottles. Volume points are calculated as 1 point assigned for each dollar spent. Thus, a two-pack would yield 75 Volume Points and a case would be 150 Volume Points. There is also special bulk pricing available.

25) Why does Liquid BioCell Sport cost more than Liquid BioCell Life for the same amount?

Liquid BioCell Sport combines Liquid BioCell with the added benefits of highly-effective ingredients targeted for athletic performance. The cost is slightly more than Liquid BioCell Life because it is a different formulation. For more details and to read the product label visit www.LiquidBioCellSport.com.

26) Is Liquid BioCell Sport specifically formulated for either men or women?

Liquid BioCell Sport is formulated to be effective for both men and women.

27) Does Liquid BioCell Sport come in the same type of packaging as Life or Skin?

Yes. Each bottle of Liquid BioCell Sport comes in the same 28 fl. oz. (828 ml) glass bottle as Liquid BioCell Life and Liquid BioCell Skin, and is sold in two-packs, 1-case (4 bottles), as well as bulk quantities at discounted pricing.

28) Does Liquid BioCell Sport come in soft chews and/or travel shots?

Liquid BioCell Sport is not currently available in soft chews or travel shots, however, Liquid BioCell Life is available in soft chews and travel shots.

29) Does Liquid BioCell Sport contain resveratrol?

Liquid BioCell Sport was clinically designed to enhance athletic performance and contains carefully-selected ingredients specific for that purpose. It does not contain resveratrol, however, our Liquid BioCell Life product does contain resveratrol.

30) Why is Liquid BioCell Sport a different color and a different taste than Liquid BioCell Life?

The taste and color of Liquid BioCell Sport differs from Liquid BioCell Life because it is a different formulation combining Liquid BioCell with highly-effective ingredients targeted for athletic performance. For more details and to read the product label visit www.LiquidBioCellSport.com

31) Is Liquid BioCell Sport available in stores?

No, Liquid BioCell Sport is not available in retail establishments. Liquid BioCell Sport is only available through our network of Independent Representatives.

32) How do I purchase Liquid BioCell Sport?

There are a few ways to purchase through your Jusuru Independent Representative:
